

COMMISSION HEARS
THE COST OF WOOLEN
CLOTHING TAKEN UP

Wide Difference in Quality
of American and English
Goods of Same Price, Says
an Expert.

SPEAKS ON TARIFF

Editor Dale of Textile Trade
Review Explains Facts of
the Business at State House
Inquiry.

The difference in quality of woolen cloth sold in England and in the United States at practically the same price is very great, Samuel L. Dale, editor of the Textile Trade Review, told the special committee which is investigating the high cost of living at the State House today.

An English piece of cloth selling for the equivalent of 84 cents in United States money is all wool, and an American made piece selling for 77½ cents a yard contains only 30 per cent wool and the balance is cotton warp and filling, the speaker said. He said one can take all the wool out of the American piece and still have a piece of cloth of fair texture. The American manufacturer, he said, dislikes to make such fabrics, but circumstances compel him to.

He said not to make too much generalization from that statement, but that it is a fact and there must be some reason to account for it. In comparing the cotton and woolen industries, he said the production of cotton is well understood, but of the growth of wool scarcely anything is known.

He blames the condition in the woolen trade in a large part to legislators who have gone into one subject and left the other alone. This condition complicates things so that it is almost impossible accurately to state the situation, according to Mr. Dale.

The entrance of the American Woolen Company into the woolen trade, he said, has had a steady influence, preventing fluctuation in prices which were injurious both to the manufacturer and consumer. The large production of the American Woolen Company has established a basis for prices which smaller manufacturers have followed.

Referring to the Wilson tariff bill the editor said it had been beneficial to the wool manufacturing interests but not to the wool growers, and he believed that this benefiting one branch of an industry and injuring another was wrong. He stated that no changes in tariff could be said to have affected directly the price of wool in the last 10 years, because there has been no such change in the tariff.

The increase in the cost of wooleens, he said, is for a large part due to worldwide conditions. The only effect that the tariff could have on the question would be to prevent this country getting the benefit from cheaper wool in other parts of the world as these changes took place. The greatest effect of the tariff, he said, is in the low and medium grades of cloth, as the result is adulteration. The shrinkage of wool, he said, varies anywhere from 10 to 80 per cent, the tariff being the same. That which shrinks most goes into the poorer grades of cloth and the difference between the greatest and least shrinkage represents the effect of the tariff in the clothing of the rich and poor man.

Merrill Smith, treasurer of the Eaton mills, said that in the main he agreed with Mr. Dale. He also added that an increase in the labor cost and in the cost of material had affected the price of woolen in the last 10 years.

William Whitman stated that he had never known so many changes in the cotton and woolen industry as during the last six months, except in periods of great depression. The agitation over the cost of living, he said, had undoubtedly had its effect in checking the purchasing of goods and is one of the causes of the unsettled condition today in these industries.

At the session this afternoon representative clothing men appear before the committee, including a representative of the Henry Siegel Company.

HOTEL MEN STOP
OFF AT CHICAGO

The New England members of the Hotel Men's Mutual Benefit Association who are now traveling westward to attend the thirty-first annual reunion of the organization stopped off at Chicago to be guests at luncheon in the new Blackstone hotel.

One of the things the New Englanders inspected were the huge tanks for holding live brook trout. This, it is asserted, is a new hotel feature. Guests who insist on having absolutely fresh trout will be handed a line and reel and told to catch their fish. Then the catch will be cooked before their eyes.

SHOE FACTORY TO MOVE.
SPRINGVALE, Me.—The Douglas shoe factory, which was opened here two years ago, will be shipped back to Brockton, Mass. All the stock has been manufactured. The factory employed 350 hands and had a weekly payroll of \$4300.

"How Books Are Made"
Is Interesting Exhibit at
The Public Library

An exhibition is now being held at the Boston public library which includes materials and features of a printed book and examples illustrating the art of book-making. This exhibition is the work of the pupils of the International Typographical Union course in Chicago and is loaned by the Newark (N. J.) public library.

The exhibit consists of about 150 cards illustrating 40 features of book-making, such as manuscripts, book papers, title pages, photo engraving and other graphic processes, binding materials, proofreading, etc. It is well worth a visit.

An illustrated lecture, "The Present and Future of Printing," will be given in the lecture hall of the library, April 14. The exhibition will remain open until April 16.

GENERAL PROPERTY
TAX OPPOSITION IS
OBJECT OF ATTACK

Edward F. McClellan of the Boston Chamber of Commerce made answer at the State House today to the opponents of the amendment to the state constitution which was passed by the last Legislature, and which is now before the present Legislature on the question of submitting it to the people next fall, providing in general for the abolition of the general property tax system, and the establishment of a more equitable one.

The opposition to the amendment is represented by the State Assessors Association, Corporation Counsel Babson and Nathan Matthews, Jr., of the Real Estate Exchange.

Henry James, Jr., of the American Forestry Association made an earnest appeal in behalf of lifting the taxes from forest lands. The question, he said, is whether in Massachusetts it is worth considering the question whether a man can go into raising forests with an annual expense as to tax which cannot with any fixed basis. He stated that of the 5,000,000 or more acres in Massachusetts there are now 3,000,000 acres in woodland or waste land, the latter the very worst class of sprout land, and yet this state has the very best climate, the best soil, the best market for forest culture and the raising of timber. The present unequal taxation is the only drawback, and it is a serious one because the amount cannot be reckoned with in figuring the cost in advance from year to year.

NEW YORK STRIKE
CRISIS ON TODAY

NEW YORK — A strike involving 80,000 men and practically tying up the building trades will probably be called this afternoon if the strike of the 3000 steamfitters and their assistants is not settled. A meeting of 51 delegates is now on at the headquarters of the United Board of Building Trades. A new constitution will be adopted and a strike vote taken.

The steamfitters and their assistants have been on strike since Jan. 1. They demand \$5.50 a day, instead of \$5.

ATTORNEY BRANDEIS SCORES
POINT IN BALLINGER INQUIRY

Upon His Solicitation Congressional Probe Committee
Rebukes Interior Secretary by Ordering Him to Produce Documents Called for Without Further Delay.

WASHINGTON — A rebuke was administered to Secretary Ballinger today by the congressional committee delving into the conservation controversy.

A motion was unanimously carried overruling Secretary Ballinger's protest against repeated calls for documents by Attorney Louis D. Brandeis for the "prosecution." The secretary, in a letter made public at the last meeting of the committee, declared that these requests were in the nature of a "fishing process" and an "oblique attempt to control the presentation of evidence."

When the hearing opened today, Mr. Brandeis, replying to the charges, protested against the secretary's delay in producing the documents called for, and demanding instructions to Mr. Ballinger to turn them over at once.

"We can't get anything in the nature of a surprise in the documents we call for," exclaimed Mr. Brandeis. "The secretary knows everything we ask for and I might say that answers to several of our calls have been withheld so that the secretary could look over everything."

He said that in the first place Mr. Ballinger "was so solicitous not to hamper in any way the actions of this committee and did not even wish to have counsel, but that representation by counsel might be deemed in some way to place an obstacle in the pursuit of truth."

Continuing, Mr. Brandeis criticized the

Rush Masonry Work on Big B. & M. Repair Shops
Steel framework of first unit up and building should be ready June 1.

Showing a view of the frame of first section of buildings at East Somerville, looking from the Western division tracks toward Somerville; Mystic river in the foreground.

NAVY DEPARTMENT
WANTS WIDER DRAW
AT WEYMOUTH RIVER

A hearing on the petition of the Navy department of the United States for the widening of the draw over Weymouth Back river between the towns of Hingham and Weymouth was held today before Lieut.-Col. Edward Burr, army engineer officer of the Boston district, in room 95 of the Federal building.

The navy department is constructing a naval magazine at Hingham, just beyond the bridge, and desires to widen the draw in this bridge to 50 feet, so that lighters can pass through with supplies for the magazine.

In the event that the war department acts favorably on the petition of the navy department a new bridge will probably be constructed. This will require an appropriation. At the conclusion of the hearing Colonel Burr stated that he would allow an extension of one week for persons to submit briefs.

At the end of two weeks he will file his report with the war department. Atty. Samuel H. Pillsbury, representing the Old Colony Railway Company, said that he did not see any reason why any changes should be made, as there was no commerce on that section of the river now. He stated that the only vessel which necessitated the opening of the draw was a small sloop which used to make weekly trips to the sand pits in that vicinity. During the past two years, he said, the sloop had discontinued making these trips, and that as far as he knew the draw had not been opened in that time.

The only other craft that frequent that section of the river are pleasure yachts. Mr. Pillsbury stated that the river at the point in question is shallow and that the present draw does not constitute any unreasonable obstruction to navigation as defined by statute.

Joseph Burdett, representing the town of Hingham, asked for an extension of time to file briefs on the question, and Thomas F. McInerney, representing the city of Quincy, stated to Colonel Burr that he was of the same opinion as Mr. Worthing. The hearing was then closed.

THE masonry work on the new locomotive repair shop of the Boston & Maine railroad at East Somerville is being rushed to completion by a full working force and during the fine weather progress has been so rapid that the officials of the road now predict that the first section will be ready for use by the first of June.

At present the provision is only for what is known as a "running repair shop." Work on the remainder of the project will be undertaken, say the officials of the road, as soon as the financial conditions of the system permit.

Other buildings proposed to complete the plant are a car repair shop 962 feet long and 130 feet wide, a paint shop of about the same size and containing a transfer table 80 feet long and other buildings containing pipe and tin work shops, a nickelplating shop, a lacquering and upholstering shop, sash and blind making shop, woodworking mill with a cabinet shop and blacksmith shop and car machine shop. Besides these there will be a lumber shop and drying kilns, a cleansing shop and storerooms and storeyards for iron and timber work, the whole costing in the neighborhood of \$2,000,000.

A power house 150 feet long and 100 feet wide will furnish power for the plant when it is complete.

The full series of buildings will cover 45 acres. This enormous repair plant will take the place of the shops recently burned at Prison Point, Charlestown.

The section now under construction is 203 feet long and 170 feet wide, with 10 tracks running into it. The structure will be in three parts, the main part being 70 feet wide and 40 feet high.

An electric traveling crane will be installed in this central section, with a capacity of 120 tons. The heavy machinery necessary for the work of locomotive repairs will be installed in the other parts of the structure. Ten locomotives can be accommodated at a time in the section now being built, and the entire plant, when finished, will have a repairing capacity of 28 locomotives at a time.

SENATE INCREASES
RIVER-HARBOR BILL
BY MANY MILLIONS

WASHINGTON—As decided on today by the commerce committee of the Senate, the river and harbor bill appropriations amount to \$52,566,418. The bill as it passed the House carried \$42,558,176. The measure will be formally reported to the Senate on Monday.

The House appropriation of \$175,000 for the improvement of the Missouri river was increased by the Senate committee to \$300,000, the money to be expended between Ft. Benton and Kansas City.

Among the amounts appropriated for states and several special objects are: Maine, \$299,500; New Hampshire, \$40,000; Vermont, \$57,000; Massachusetts, \$745,000; Rhode Island \$975,000; Connecticut, \$419,500; New York, \$4,352,920.

The most important new items and increases for New England are:

For improving harbor, Fall River, Mass., \$143,000; for improving harbor, Newport, R. I., \$50,000 and contracts authorized for a total not exceeding \$183,000; constructing West Shore arm of breakwater at Point Judith, R. I., \$175,000, contracts authorized for improving Providence river and harbor, \$434,000 instead of \$240,000 allowed by the House; improving harbor at Bridgeport, Conn., \$45,000; improving St. Croix river, Me., \$75,000, and the harbor at Rockport, Me., \$32,000.

SUGAR COMPANY FINED \$500.

NEW YORK—Federal Judge Lacombe today fined the American Sugar Refining Company for contempt of court, following its failure to produce its books for the inspection of the grand jury in compliance with orders issued by him last week. The decision will be appealed.

STEEL TRAIN FOR PACIFIC.

ST. PAUL—The first train of steel cars from the twin cities to the Pacific coast will be put on by the St. Paul road on its Puget Sound extension when the service is started on that line in July. The road has placed large orders for modern cars with a number of builders.

LARGE IMMIGRANT
LIST IS UNDERGOING
OFFICIAL SCRUTINY

Examination of the steerage passengers arriving on the Cunarder Ivernia is going on today. The large number, 1655, being the biggest list to reach here from the British Isles on one steamer for more than two years, was too large to dispose of Thursday afternoon.

There were a large number of detentions at the first examination, but many were released today when the cases were heard before the board of special inquiry.

Among the saloon passengers was W. Perley Hall, chairman of the Massachusetts board of railroad commissioners, and who is said to be slated to succeed Congressman Tirrell from the Fitchburg district, returning from a month's trip abroad.

The Ivernia's second-cabin list was a record-breaker. There were 434 of this class of travelers, the largest ever brought to Boston. There were also 43 saloon passengers, making a total of 2132 on board.

LIBERIAN TRIBES
GIVEN SYMPATHY

LONDON—The Kroo tribesmen have the sympathy of nearly all the foreign residents in Liberia in the campaign they are waging against the Liberian troops, according to Englishmen who arrived today from Monrovia. The Kroos are an independent, intelligent race which supplies practically the only labor in West Africa. The Liberians are denounced as wholly incompetent. They do nothing whatever for the Kroos beyond taxing them inhumanly.

The Kroos do not recognize the Liberian authority and have frequently laid complaints before the governors at Sierra Leone with the result that England has several times remonstrated with the Liberians. The American commissioners who recently visited Liberia, the returned Englishmen say, confined their investigation to the Liberian coast.

NEW OFFICE FOR MR. MERRILL.

NEW YORK—Edwin G. Merrill, vice-president of the Central Trust Company, has been elected president of the Union Trust Company to succeed John R. Castles.

CITY PLAYGROUNDS EXPERT
URGES MORE LIBERAL FUND

Report by Joseph Lee of Boston School Committee Declares Appropriation of \$68,000 Is Inadequate—Tells About Work of Training Boys and Girls.

Joseph Lee of the Boston school committee and head of the National Playground Association has submitted his report on the city playgrounds to the special committee of the United Improvement Associations, composed of Frank S. Mason, E. C. Marshall and Myron W. Pierce, which has undertaken to follow up the playground work of the city.

Mr. Lee says in part in his report, which today is of especial interest to all parents in greater Boston:

"The school committee has this year set aside out of its appropriation of \$68,000 for play and physical education the sum of \$22,727.30 distinctively for playground work, including \$1300 for fitting up five new school playgrounds and about \$3000 paid to park department employees for the care of some of the grounds. With this amount the school committee carries on play and athletics for the boys on 20 city playgrounds for 100 afternoons in the spring and fall and conducts 30 school yard playgrounds and sand gardens for smaller children from the middle of April until the end of September.

"I believe there is no city in the country where the playgrounds are more economically administered. Chicago appropriates annually about \$300,000 not for her playgrounds, but for the 14 small parks which represent her playground equipment on the South Side alone. Our Boston playgrounds cannot be carried on

First Mackerel of Season
Landed by Captain Jacobs
At Fortress Monroe, Va.

THE first catch of mackerel of the season was landed today at Fortress Monroe by Capt. Solomon Jacobs of the schooner Elmer E. Gray. About 1200 large fresh mackerel were in the Gray's fare, all of which were disposed of immediately.

To date 27 schooners have sailed south after mackerel, Captain Jacobs' vessel being one of the last to leave. The schooners Judique and Ralph Russell at Old Point Comfort, Va., report that the schooner Aloah, Capt. John McGinnis, saw several schools of the fish on April 1, but succeeded, however, in taking only 140, not enough to bring ashore. The first catch last year was not made until April 16 by the schooner Electric Flash, Captain Bissert. She brought into Fortress Monroe 13 barrels, which sold for 50 cents per fish.

ITALIANS' WELCOME
DRIVES ROOSEVELTS
QUICKLY TO GENOA

(By a Staff Correspondent of the United Press.)

GENOA—Colonel Roosevelt arrived unexpectedly in Genoa at 5 o'clock this afternoon, 24 hours ahead of his schedule.

He declared he was simply driven here by the hospitality of the Italian people. Instead of the expected privacy of his carriage and automobile trip from Spezia he and his wife were confronted on every hand by crowds of villagers, who brought flowers and bore Italian mottoes of welcome.

Even the country roads were lined with the peasants and the colonel and his wife found it practically impossible to adhere to their plan of revisiting all the places in which they spent their honeymoon nearly a quarter of a century ago. Despite the fact that their plans were thus upset, the colonel and his wife greatly appreciated the hospitality of the people.

The couple went to the Britannia hotel in Genoa, where the colonel was visited by United States Consul Smith, the prefect and several of the city officials. The welcome was wholly informal, as the colonel was not expected until tomorrow.

Tomorrow morning the colonel and his wife will leave by train for Porto Maurizio to visit Mrs. Roosevelt's sister, Mrs. Carow. At that place they will be rejoined by Kermit and Ethel Roosevelt. A group of Italian newspapermen called on the colonel this afternoon, but the only story they got from him was an experience at Rapallo this morning, when an enterprising hotel cabman lured him and his wife into his cab and drove them to a different hotel from that at which they had intended to stop.

Mr. Roosevelt had intended to make the present trip incognito, but he is finding that everywhere he goes his coming has been announced and the villagers gather to see him.

Before leaving Spezia, Mr. Roosevelt promised the correspondents that he would report to them daily the main

GIRLS NEED TRAINING
IN HOUSEHOLD WORK
SAYS SCHOOLS HEAD

Superintendent Nickerson of
Medford Explains It as
Necessary to Meet the New
Social Conditions.

OUTLINES HIS IDEAS

Criticizes High Grade Course
of Today as Failing to
Equip Young Women to
Become Homemakers.

Why the movement is afoot for domestic instruction in the public schools at the present day when it has been a dormant feature in education in the past is interestingly discussed by Superintendent of Schools Fred H. Nickerson of Medford in his annual report, submitted today to Mayor Clifford M. Brewer of Medford.

The relation of the schools to society is the chief reason given by the superintendent for the changes made from time to time in school work. As social conditions change, so must school courses be revised to meet the new conditions. Superintendent Nickerson says in part: "The necessity and worth of any policy of public school administration must be judged with reference to its effect in training boys and girls towards social efficiency. Since social conditions are not fixed, the character of public instruction must change from time to time if it is to meet the needs of the young people. Because a traditional course of study has seemed wise in the past, it does not logically follow that it may be best for the present. Whether or not it be so depends upon existing social conditions.

"Now the concentration of a large per cent of the country's population into more or less congested residential centers has developed social conditions vastly different from those which prevailed when the population was less urban—conditions that require a kind of training in preparation for successful living that is unlike that of the past in respect to the emphasis to be put upon what is commonly known as the practical studies.

"The fact that today the majority of pupils who finish the course in our elementary schools go on into the high schools for a longer or shorter period makes it even more imperative that the so-called liberal or culture studies should hold a less important place in our high school course than they have. In the past educators have generally held that certain studies are especially adapted to train certain faculties of the mind and that a child so trained acquires power which is available in any field of intellectual activity. For example, it has been generally supposed that mathematics is the subject preeminently with which to train the reasoning faculty and that one taught to reason well with mathematical data acquires thereby power to reason well in any field of ideas; and similarly one trained through the study of Latin and Greek to observe linguistic forms critically and to use them with exactness acquires thereby a general power of critical observation and accuracy that is effective in any field of mental activity. This theory is largely responsible for the type of high school course that has and chiefly does prevail today.

"Experimentation indicates that power gained in a special field of knowledge is effective in another only to the extent that the latter field has elements in common with the former. For example: Power in mathematical reasoning has a certain value in the study of physics because the data of mathematics enters somewhat into physical science, but it is practically valueless in dealing with grammatical material, because mathematics and grammar have almost no data in common.

"I am convinced that the course of study in our high school today offers insufficient opportunity for training in lines that are designed to equip young women to become efficient homemakers, a vocation to which at some time a majority of young women may fairly expect to be called, and for which relatively few today are receiving any adequate preparation.

"Some of the results that I believe we may fairly expect from the proper teaching of these subjects to young women are these:

"First—Higher appreciation of the importance of home duties and of the significance of the home as a social institution.

"Second—A deeper sense of women's responsibility in homemaking.

"Third—Increased capability in the management of a household and in the performance of household duties, if necessary.

"Fourth—A lengthening of the average period of school life for our girls, which, I think, would be a social gain.

"Fifth—Not only power that is directly available in after life, but also increased respect for work and the worker, as pupils realize through personal experience the manual skill and artistic sense required for a successful milliner or dressmaker, and to the extent to which this is so, such training is effective as a social solvent."

JOSEPH LEE.

News of the World Told by Cable and Correspondence

Long Tunnel of the Andes Opened to Public Travel

(Special to The Monitor.)
VALPARAISO, Chile.—The official inauguration of the Andes tunnel took place Tuesday and ministers of public works of both Chile and Argentina attended in state. This tunnel is of the same dimensions as the Simplon and is therefore large enough to allow locomotives, carriages or trucks that are run on a 5 foot 6 inch gauge to pass through it. It is straight throughout, except for 120 yards at the eastern entrance, where there is a curve of 219 yards radius.

When on Nov. 27, 1909, the last thin wall of rock was demolished and the great barrier of the Andes pierced, Chile was delivered from her splendid though undesirable isolation and put in close human and commercial relation with the rest of the continent. The first practical steps toward this happy consummation were taken by two Chilean brothers, Juan and Mateo Clark, who obtained a concession from the Argentine government some 37 years ago to build a railroad from Buenos Aires to the Chilean frontier. By 1880 the road was completed to Mendoza, a distance of 650 miles.

The last section and the most difficult, from Mendoza to the Chilean frontier and thence to the Chilean town of Los Andes, where connection is made with the existing line to Valparaiso, was put in the hands of a British company who have tunneled through the Andes.

The tunnel entering the mountain range at a height of 10,460 feet, above sea level is 3165 meters in length, 5½ meters in height and is hollowed out of solid rock. It is estimated that the total cost has amounted to \$2,500,000.

AUSTRIA WOULD MINIMIZE RESULTS OF NEGOTIATIONS

(Special to The Monitor.)
ST. PETERSBURG.—Not the least remarkable feature connected with the recent Austro-Russian agreement, which has attracted the attention and absorbed the interest of the whole world, is what would appear to be the tardiness and almost reluctance with which Austria has at last publicly acknowledged the terms to which she has pledged herself through her representative, Count Aehrenthal. What may be termed the endeavor to minimize the results of the negotiations is really incredible when it is recognized that the understanding between the two governments has entirely removed, for the time being at any rate, those conditions which made it possible for M. Iswolsky to declare only three months ago that "any question arising in connection with the Balkans might rapidly become acute and even dangerous to the peace of Europe."

The Fremdenblatt, the official organ of the Austro-Hungarian foreign office,

has ultimately and without undue haste, referred to the agreement. After endeavoring to minimize the importance of the negotiations, and especially of Count Aehrenthal's refusal to agree to the proposal of M. Iswolsky that a note should be addressed to the powers, the journal continues to point out that "the restoration of normal relations could only be a question of time," and that this object was attained as soon as the general similarity in the policy of Russia and Austria was recognized. It is further pointed out that this recognition having produced the desired result, a formal agreement is quite unnecessary and as superfluous as would be the despatch of a note on the subject to the powers. The status quo in the near East is, the journal declares, well guaranteed, owing to the good international position of the Ottoman empire and further proof of the future tranquility of the Balkan peninsula is afforded by the recent visits of King Ferdinand and King Peter to Constantinople.

NEW CANADA LINE SEEKING TRAFFIC

MONTREAL.—That the Grand Trunk Pacific is to enter into active competition with the Canadian Pacific for traffic between western Canada and the states of the middle West is shown by the announcement that a contract has been awarded for the construction of a branch line south from Regina to the boundary near Portal, while contracts have also been let for the completion of a line north from Regina to Melville, on the main line of the Grand Trunk Pacific. Portal is on the boundary line between Saskatchewan and North Dakota where the Soo branch of the Canadian Pacific connects with the western system of the latter company, giving western Canada direct connection with St. Paul and Minneapolis and Chicago. By building from its main line to the international boundary via Regina the Grand Trunk Pacific will be able to connect with J. J. Hill's system and thus establish a competitive route for all western Canada traffic.

BRITON ADMIRES JAPANESE WAYS

(Special to The Monitor.)
TOKIO.—A very hearty reception was recently accorded to Sir Claude MacDonald, the British ambassador at Tokio, on his recent visit to the island of Formosa. His excellency expressed his admiration of the manner in which the Japanese authorities are dealing both with the natives and the Chinese, and he considers that the Japanese administration is worthy of great praise. Sir Claude MacDonald's advice was eagerly sought owing to his wide experience in West Africa.

MUCH OPPOSITION SHOWN TO BELGIAN CUSTOMS TAXES

(Special to The Monitor.)
BRUSSELS.—Opposition to the government proposal with regard to the counter customs taxes, and especially against the proposal to tax foreign newspapers and periodicals on entering the country, is becoming more general. On the one hand the political economists maintain that in the interests of the country all idea of retaliation should be abandoned and that the government proposal is a great mistake. On the other hand, the Chamber of Commerce in Brussels considers that the government proposals indicate a policy opposed to the interests of the state, and that before changing that policy, through which the honor and prosperity of Belgium has been built up, it would be well to protect and develop the resources of the nation in other directions, such as employing men of Belgian nationality for the construction of public works, whether to be built by the government or by the authorities in the provinces. To quote a case in point, it is pointed out that the contract for the construction of the new dry docks at Antwerp has been given to the Germans. In the opinion of the Chamber of Commerce, the government should forthwith draw up a minimum tariff arranged in such a manner that the maximum tariff will therefore act as a protection to the industry of the country.

CHINESE HAVE FORCE AT LHASA

(Special to The Monitor.)
CALCUTTA.—Accompanied by their suites three high lamas, fleeing from Tibet, have arrived at the British-Bhutanese frontier and have been granted permission to enter British territory. It is reported that they intend to continue their journey to Darjeeling where they will consult with the Dalai Lama. According to the report of the lamas the Chinese soldiery now at Lhasa consist of 1000 men, composed of cavalry and infantry. These troops are, they state, armed with modern magazine rifles, but they deny the statement that an attempt has been made to capture the Dalai Lama or that his property in Lhasa has been interfered with.

BUILD DAM EIGHTY-FIVE FEET HIGH

(Special to The Monitor.)
VANCOUVER, B. C.—Having received the necessary endorsement of its plans from the Dominion government the British Columbia Electric Railway Company will proceed with its work of constructing a hydraulic dam 85 feet in height, by which it is proposed to raise the waters of Lake Quatnam 60 feet. The work was planned by J. B. Schuyler of Los Angeles, and will require about two years to complete. When this increased water power is available, the company intends installing at the Lake Buntzen plant an electrical unit of 20,000 horsepower, which will give it a total energy of over 50,000 horsepower.

CANADA TO HAVE NEW GOLD COIN

(Special to The Monitor.)
OTTAWA, Ont.—Parliament has decided that gold coin is to be minted in Canada and that the decimal system will be adhered to,—the coinage not following the type of the English sovereign, but being issued as five-dollar pieces and multiples.

Canadians find it difficult to "reckon" with coins valued at 498 2-3 cents, as is the sovereign; the 500 cent value appearing more practical a basis for their new venture.

The new mint at Ottawa has been turning out silver and copper coins for over a year and one special issue of gold was made, but until the present a regular gold coinage had not been decided upon.

QUEBEC HAS NICE SURPLUS.
QUEBEC.—The province of Quebec budget shows a surplus of nearly \$400,000 this year. The era of deficits was brought to a close by Mr. Marchand in 1898, and the development of natural resources in the last 10 years has resulted in increased public revenues.

SIGNOR TITTONI NAMED ENVOY.
ROME.—Tomasso Tittoni, the former minister of foreign affairs, has been appointed ambassador to France.

RECORD AEROPLANE FLIGHT MADE FOR THE BRITISH ISLES

Hon. C. S. Rolls in Wright Biplane Covers Distance of Twenty-Six Miles—Breaks Record for Height Also—French Military Authorities' Restrictions.

(Special to The Monitor.)
LONDON.—The Hon. C. S. Rolls has just accomplished what constitutes a record flight for the British Isles. Piloting his Wright biplane, Mr. Rolls started from Short's airship factory at Leyland and covered a distance of about 26 miles. It is said that in addition to breaking the length record, Mr. Rolls attained at the same time a greater height than has yet been reached by a British aviator. There was a good breeze blowing when Mr. Rolls started on his journey from the factory to the Royal Aero Club grounds at Eastchurch, where he remained for a short time before continuing his journey to Queenborough, over which he flew at a height of about 1000 feet. When near the railway station the aviator turned and passed within sight of Sheerness, where he was seen by the officers and men on the battlements. He then skirted the village of Eastchurch and proceeded to Hartly and Laysdown villages, returning eventually to Eastchurch, where he landed after having completed the longest cross-country flight, with perhaps the exception of

the best flight accomplished by Mr. Cody from Laffan's Plain, as yet accomplished in Great Britain.

PARIS.—It appears that a great number of strangers, including naturally a great number of foreigners, have been attracted to Chalons camp, where is situated the aviation school for aeroplanes. Owing to the increasing number of foreigners flying over and in the neighborhood of the aerodrome, the military authorities have issued most stringent regulations in order to prevent anything in the nature of espionage. It is stated that on one occasion several of the students of aviation, of whom there are at present 600, flew over the batteries and firing butts. Since this occurrence no aeroplane is permitted to leave the precincts of the flying ground, in addition to which flights are only permitted during an hour before sunrise and after 3:30 in the afternoon. In view of the serious restrictions now being enforced, Mr. Farman, whose pupils are continually growing in number, has decided to found a school at Etampes.

CANADIAN GOVERNMENT IS ARRANGING SUBSIDIES

(Special to The Monitor.)
OTTAWA, Ont.—More liberal subsidizing is being arranged by the government for such undertakings as the Dominion Dry Dock Company's project which is at present being negotiated, the provision contemplated being an annual subsidy of 3½ per cent for 35 years on an outlay up to the limit of \$4,000,000 expended on each separate plant.

The government requisitions for any such operations at the points specified in the company's incorporation (Levis, Que., and St. John, N. B.) call for floating dry docks of dimensions capable of receiving vessels of at least 25,000 tons displacement and providing for their repair with ease and safety.

For dry docks, other than floating, the requirement is for a clear length on the bottom of 900 feet; entrance width of 100 feet and depth of water over the sill

of 35 feet at high water, ordinary spring tides. The construction of such docks must, further, provide for the receiving and repairing of the largest ships of the British navy existing at the time of the signing of the contract if they are to be graded as first class dry docks.

It is pointed out that the establishment of these docks and others also being projected will remove the growing criticism against the St. Lawrence river route regarding the non-provision of repair facilities. Already 20 steamers which frequent the route are too large for the dock at Levis, Que., and as the size of vessels is constantly increasing the present move towards adequate dockage provision is welcomed by the opposition as well as by the government.

It is reported that the dock at Levis which Harland & Wolff have planned will be the largest in the world, measuring 1000 feet in length; being 75 feet longer than the "Canada" dock at Liverpool.

TURKISH OFFICERS PREPARE DESIGNS FOR BATTLESHIPS

(Special to The Monitor.)
CONSTANTINOPLE.—The general designs of two battleships and one armored cruiser have been prepared by a commission composed of 40 officers. The displacement of the battleships is to be 15,000 tons, and they are to have a speed of 21 knots, turbine engines being used. With regard to armament they are to carry six 12-inch, six 9.2-inch, 14 4-inch and four 3-inch guns. The armored cruiser will have a speed of 24 knots and be of about 10,000 tons displacement. She will be armed with six 9.2-inch guns. It is expected that Messrs. Armstrong, Vickers Sons & Maxim and Brown will receive the orders for the battleships and cruiser, of which the specifications

are being prepared in England. In addition to these three vessels, it is quite possible that an additional fleet of six gunboats for the purpose of coast defense will be built.

With regard to the specifications for the battleships, the ministry of marine are said to express the hope that permission will be granted for them to be submitted to the British admiralty. With regard to the financial side of the question, an additional sum of £500,000 a year for 10 years has been added to the budget of the ministry of marine owing to the passing of the navy bill. In addition to this a further sum of £200,000 per annum at least must be taken into account for the upkeep and repair of the new vessels.

LAST TWO OF VETO RESOLVES ON LORDS BEFORE COMMONS

LONDON.—The second and third veto resolutions of the Liberal government for the curtailment of the power of the House of Lords are today on the order of business of the House of Commons.

The Commons, in committee of the whole Thursday night, adopted Premier Asquith's first veto resolution by a vote of 339 to 237.

This resolution declares it expedient that the House of Lords be disabled by law from rejecting or amending a money bill, but that any such limitation shall not be taken to diminish or qualify the existing rights of the House of Commons. Lord Rosebery, continuing his efforts in the direction of the reform of the Lords, gave a dinner party to the lead-

ing peers Thursday night, the special object being informally to discuss proposals which Lord Rosebery intends to introduce for the reconstitution of the House of Lords.

AUSTRALIAN IMMIGRANTS.
BRISBANE, Queensland.—The question of immigration is reported to be entirely satisfactory as regards the state of Queensland. A recent batch, typical of the continual stream arriving, reached the country from London recently and consisted of 214 persons. Of these 132 were English, 50 Scottish and 16 Irish, and since they have had farming experience in their own countries and possess capital up to \$1000, their success should be insured.

RAILHEAD ON CAPE TO CAIRO RAILWAY NEAR KONGO BORDER

(Special to The Monitor.)
CAPE TOWN.—It is expected that by the end of April the railroad of the Cape to Cairo railway will have been carried for 100 miles into Kongo territory. Locomotives are now running to a point 40 miles beyond the Kongo frontier or 2187 miles from Capetown and the earthworks are completed for 60 miles farther northward.

From the Star of the Kongo, or Elizabethville, the next section of the railroad will be to Kambove, an important center 110 miles to the northward. The survey of this portion is now being made. Beyond Kambove it has been decided that the line shall be laid next to Bukana, a distance of about 100 miles, situated on the navigable headwaters of the Kongo. When Bukana is reached there will be communication both by river and road with the Atlantic at the mouth of the Kongo.

Through trains are now running twice weekly between Capetown and the Victoria Falls and between Victoria Falls and Broken Hill.

Built for Posterity

Our Harness, Wardrobe Trunks and Travelling Bags are built for posterity. No uncertainty, either about returning home or reaching your journey's end with everything intact when riding, driving and traveling with goods of our make, and our prices are uniformly modest.

"Devonshire" Wardrobe Trunks are the best and most convenient of them all. Prices are from

60.00

HOT SPRINGS, Ark.—The Pittsburg baseball team breaks its spring training camp today. The first team will leave for Little Rock, where a game is scheduled with the Fayetteville state university team. The second division will leave later and meet the first team at Memphis.

MEDFORD, Mass.—The graduate system of football coaching was adopted Thursday evening by the advisory board of the Tufts College Athletic Association. Vincent H. Sheedy, the captain of the '08 eleven and crack halfback for four years at Tufts, was appointed head coach with Richard C. Smith '06 of Medford, the fullback of the '04 and '05 elevens, as assistant coach.

E. L. Brown, who recently resigned the ptaincy of the Andover baseball nine, has left the academy and gone to the university of Virginia. Brown was one of the best schoolboy pitchers in the country and was elected to the Andover ptaincy after two years on that nine.

facts of the day until the reorganization of the party.

According to the latest plan, the Roosevelts will leave Porto Maurizio on April 12 for Vienna, stopping at Venice for a day en route.

LOUISVILLE—In an editorial in the Courier-Journal today headed "Whither," Henry Watterson says:

"The time has come for the people of the United States to consider Theodore Roosevelt as they have never considered him before, to realize that he is altogether the most startling figure who has appeared in the world since Napoleon Bonaparte—a circumstance not without significance and portent.

"The Courier-Journal asks its contemporaries throughout the country to reflect without passion or levity, and to answer to themselves, amid the blaze of light which casts an aureole about our wandering Ulysses, whether representative government in America is a failure and whether the only cure for the evils which are admitted is the one-man power, because they may be sure that the return of Theodore Roosevelt to power will be so construed by Europe, and that on this account the exhibition of monarchism has its chief significance."

Mr. Roosevelt Anti-German, Declares Editor Harden

BERLIN—With the declaration that Colonel Roosevelt, while President of the United States, was anti-German in his policies, Maximilian Harden, editor of Zukunft, exhorted the German people to day to show extreme coldness to the colonel on his coming visit to Berlin.

Herr Harden bases his attack on the alleged unfriendly attitude of Mr. Roosevelt during the German detente with France and Spain regarding Morocco in 1906. He declares that Mr. Roosevelt cabled the Kaiser several times during this dispute urgently advising him to accept the French and Spanish police control of Morocco for the maintenance of order there.

According to Herr Harden, the Kaiser cabled to Roosevelt on March 14, 15 and 17, 1906, setting forth Germany's position, but these messages were practically ignored by the then President.

Finally, on March 26, through what Herr Harden says amounted to coercion, Germany yielded to Mr. Roosevelt's request. Herr Harden declares the entire course of the colonel was anti-German, and clearly showed that he was not a friend of the German empire.

SPENCER COUNSEL NOT ENGAGED YET

SPRINGFIELD, Mass.—Efforts to engage counsel to defend Bertram G. Spencer from the charge of murder have met with refusal from several prominent attorneys. Daniel Leary was one of them. He consented to interview Spencer at the police headquarters, but then refused to take the case unless he should be assigned to it by the judge.

"I talked with Spencer," said Mr. Leary. "He said he committed the murder, but he couldn't help it, and that kind of stuff. I refused to defend him."

It looks today as if some bright young lawyer would get the assignment from the judge. H. L. Handy, Spencer's employer, said that neither he nor Mr. Amberg, the father-in-law, has made any effort to get counsel for the young man.

"We might have acted very differently," said Mr. Handy, "before the confession."

The police have nothing further to offer in connection with Spencer's case at present. The Blackstone inquest will probably be held early next week.

FRATERNAL ORDER ENJOINED TODAY

An injunction restraining the Workmen's Circle, a New York fraternal association, from doing business in Massachusetts, was issued today by Judge Rugg of the superior court, at the relation of the insurance commissioner, upon information brought by the attorney-general.

There are 20 branches of this organization in this state, and a total membership of about 2000. The amount of each policy is \$200, and the business came under Sect. 12, Chap. 119 of the Revised Laws.

COMMANDER MARSH EXPLAINS NEW PLAN FOR NAVAL RESERVE

PHILADELPHIA—A new plan for building up a big naval reserve from the skilled mechanics, electricians and machinists on shore, was unfolded here today by Commander Marsh, son-in-law of Rear Admiral Evans, in a speech before the Navy League.

"There are," he said, "in all our ports mechanical establishments employing skilled men. There are technical schools in which young men are being educated for a mechanical profession. There is an enthusiasm for things military and naval which is inducing many of the better training schools in the country to adopt a course of military education throughout the winter with naval training in the summer."

HARVARD ADOPTING METHOD OF STATE ASSISTED COLLEGE

Harvard has definitely entered the competitive field against the land grant colleges of the middle West. This is the opinion today of many alumni who have studied the project just announced by the overseers of granting non-residential degrees with the title of associate in arts.

It was pointed out by one alumnus today that while the state-operated universities of most of the states have attempted to bring education to the people, Harvard and several other institutions of the East have been decidedly conservative in that respect. This policy has met with several reversals lately and the new degree virtually holds out an opportunity to the aspirant to avoid the entrance examinations.

"The degree of associate in arts, while differentiating it from the regular bachelor's degree, could not be considered a bargain offering," said another graduate. "Thus it will be granted for no less work, and probably will mean nothing more than the wider advertising of a situation of which any one might have taken advantage for many years."

"Harvard has long had a rule that no degree could be granted for less than one full year's work and residence at the university. This would make it possible for a student to take work in the summer school and secure a degree for that work and the result of only one year's attendance at regular college sessions. So far as I know this has never been done. This possibility will very likely now become popular."

NEW CURRICULUM IN TUFTS COURSE

The Tufts Engineering School faculty, in the new curriculum for 1910-1911, has made about 50 changes. Eight subjects are discontinued, many new ones are introduced and the mechanical engineering course is materially altered.

Structural engineering will become a separate department, with an increase of the time allotted to structural design, and a new course in topics and reports will be introduced. The civil engineering department will give courses in water supplies, sewerage and water power engineering.

The mechanical engineering department will give the following new courses: Mechanics of machinery, dynamics of machinery, mechanical engineering problems, production engineering, industrial engineering and a new laboratory course in gas engines and automobiles.

B. U. PLAYS GIVEN THIS AFTERNOON

The Sigma Kappa Sorority of Boston University is presenting "The Burglar and the Piper's Pay," by Margaret Cameron, this afternoon in Jacob Sleeper hall, Boylston street. The cast for "The Burglar": Mrs. John Burleigh, Helen C. Wilson '10; Mrs. Barbara Heath, Joyce Bisbee '13; Mrs. Reginald Clough, Eva G. Smith '12; Miss Irene Dexter, Edith J. Clark '12; Miss Edith Parker, Louise Grainger '13.

The cast for "The Piper's Pay": Mrs. John Burleigh, Helen C. Wilson '10; Mrs. Reginald Clough, Eva G. Smith '12; Mrs. Van Metten, Lawrence C. Young '10; Miss Irene Dexter, Edith J. Clark '12; Clara Miles, Aronine W. Jaques '10; Zenna Deering, Catherine E. Hilliker '13; Mary, a maid, Helen Hunt '13. The plays are presented under the direction of Miss Stella Harriet Eells.

CONDUCTOR ROUTS PAIR OF BANDITS

LA CROSSE, Wis.—Conductor Shumway of the Chicago, Milwaukee & St. Paul railway today attacked two armed robbers he discovered in the vestibule of a Pullman car, while the train was traveling between Tomah and Oakdale, putting them to rout and saving a large amount of valuables.

The conductor was overpowering the leader of the bandits when his companion cut the air-hose, bringing the train to a stop. Both men then hurled the conductor aside and made their escape from the train. A posse is in search of them.

SOMERVILLE.

At the meeting tonight of Maj. John A. Cummings camp, Sons of Veterans, a military drill will be given by the exhibition squad from company M, under the leadership of Lieut. C. A. Randlett, a West Point graduate.

PHILADELPHIA.

"None of these classes of men is going into the navy in time of peace. But they possess a certain ineradicable sense of patriotism which will lead them to join the naval militia. It is primarily of importance that men of this caliber be shown that they are serving for a purpose, that their hours of drill and days of summer exercise are leading somewhere."

"A standard must be set up and moved a little higher each year. Examinations must be held and those of the naval militia who qualify must be assured that when a call to war comes they will enter the navy for the nation's defense in a position in which they have a confident feeling of being efficient."

Brief News About the State

WALTHAM.

The Waltham Business Men's Association is to have a "Railroad Night" at its meeting the evening of April 14. The speakers are to be Vice-President T. E. Byrnes of the New York, New Haven & Hartford railroad, Assistant United States Treasurer George H. Doty of Boston, Earl A. Ryder, representing President Lucius Tuttle of the Boston & Maine railroad, and Mayor Edward A. Walker.

The members of the senior class of the high school are planning a visit to Washington, D. C., during the coming spring recess.

Mrs. Clara Lemont was hostess to members of Dorothy Brewer chapter, Daughters of the American Revolution, this afternoon. A paper on "Old Churches" was read by Mrs. Adaline A. Blandin.

CHELSEA.

The annual election of officers of the Review Club will be held April 16.

The Rev. A. L. Skinner of Lynn will preach at the Mt. Bellingham church morning and evening April 10. The delegates from this church to the Methodist conference at Westfield this week are G. I. M. Hayes and Frank E. Winslow. They will ask the conference to return the Rev. A. H. Nazarian to this church.

The delegates from the Cary avenue Methodist church to the Westfield conference are William S. Luce and Benjamin B. Nichols.

The Cary Boys Club have just organized two baseball teams and a team for cross-country runs.

The Republican city committee will tender a banquet to the state central committee soon at G. A. R. hall.

QUINCY.

The senior class of the high school will give a reception to the juniors Friday evening next.

George H. Brown has been appointed chairman of the committee appointed to arrange for a Fourth of July celebration and Delaware King secretary.

The Salvation Army opened a three days' fair at its hall on Granite street Thursday evening.

The Murray Club of the Universalist church will hold a May basket festival in the vestry April 22.

The annual concert and ball of local street railway employees will be held in Music hall this evening. Some officials of the Old Colony street railway will attend.

EVERETT.

The school committee has under consideration the matter of raising the salaries of the grade teachers of the public schools. Owing to the cuts made by the city government in the school recommended increase will not become effective until next September.

The local Police Association has elected: President, John O'Neill; vice-president, William T. Jones; secretary, Herbert W. Card; financial secretary, Converse M. Pettigill; treasurer, James Bruce; trustee, Charles H. Crocker.

The annual reunion of the class of 1905 of the high school was held Thursday evening at the home of Roy W. T. Francis of Neilson avenue.

DEDHAM.

The Congregational church will hold its annual meeting this evening. The first church has chosen the following pastoral committee for the new church year: Julius H. Tuttle, John B. Fisher, Frank E. Barbary, Henry Cole, Benjamin Fisher, Charles Stearns, Charles E. Rogers, Mrs. M. G. Boyd, Mrs. George H. Young, Mrs. Cornelius A. Taft, Mrs. Charles J. Capen, Mrs. Arthur W. Thayer, Mrs. J. Herbert Shaw, Miss Julia M. Weatherbee, Miss Margaret Warren, Mrs. Roland Worthington and Miss Helen Mansfield.

BEVERLY.

Bass River lodge of Odd Fellows will hold its last dance of the season at city hall this evening.

Roger Conant council, Royal Arcanum, will hold an open meeting April 14 at Stone's restaurant. Former Representative E. E. Hobson of Palmer will speak. The common council will have a regular meeting Thursday evening of next week.

Many novelties are promised for the pedlars' parade which is to be given at city hall Monday evening for the benefit of local charity.

ROCKLAND.

Mrs. Fred Morse and Miss Helen Morse have returned from Tampa, Fla., where they have passed the winter.

The Woman's Club will hold its annual children's entertainment in the opera house this afternoon.

The Rockland Teachers Association will hold a public meeting in the school assembly hall Monday evening. An address will be delivered by Dr. A. E. Winship of the Journal of Education.

The selectmen have appointed Dennis J. Murray a police officer.

BROOKLINE.

The selectmen have decided to place a bell in the tower of the Presbyterian church on Harvard street, formerly the old Baptist church. The town clock which is being installed there will be ready in a few days.

The contract for concrete work for the town during this year has been awarded to Lowe Armstrong Company.

Work is progressing on the new public library building and the builders declare that the work will be completed by Aug. 1.

NEWTON.

The Waban Tennis Club will have its annual dramatic entertainment this evening and tomorrow evening.

LEOMINSTER.

The school committee has given to the Hadley Coal Company of Leominster the contract for furnishing coal for the use of schools for the current year.

The Regal Comb & Novelty Company, which has been organized by Leominster men to do business at Fitchburg, has elected Herbert A. Metcalf president, J. W. Healey secretary and L. M. Metcalf treasurer. The company is incorporated for \$15,000.

L. L. Richardson has sold all his grade Ayrshire cows at auction and will substitute pure white Ayrshires. The grade cows sold from \$50 to \$75. Leominster farmers bought the stock. The white Ayrshires will be from Holland.

William Auglin has been elected captain of the high school baseball team. The boys will open the season Saturday, April 16.

The care of Monument park, the "Old Common" and Carter park for the year has been awarded to Solon H. Carter, he being the lowest bidder.

BROCKTON.

Mrs. Henry J. Russell entertained the Matinee Art Club at her home on Pleasant street Thursday.

The Rev. Robert L. Rae of Camden, N. Y., former pastor of the Waldo Congregational church, will preach at that church next Sunday. He was a member of the Brockton school committee while a resident of this city.

The Brockton Fish and Game Protective Association will hold a meeting this evening.

The Progressive Chautauque Circle will be entertained this afternoon at the home of Mrs. C. R. Barrett, Weston street.

MIDDLEBORO.

The Y. M. C. A. will open a four-night kermess in the town hall the evening of April 11.

The senior class of the high school has accepted the invitation extended by the Rev. Edward H. Cleveland to attend services at Church of Our Saviour, Sunday, June 19.

The residents of Warrentown have petitioned the electric lighting committee for a lighting service in that section.

The annual business meeting of the Unitarian church for the election of officers will be held in the church next Monday evening.

STOUGHTON.

The Board of Trade has voted to petition the New Haven railroad for an express train to this town each morning. The board has also appointed a committee consisting of A. A. Tilden, Paul Jones and Daniel F. Connors, to have charge of the moving picture exhibition which is to be run at an early date for the benefit of the association. L. W. Standish, Walter R. Swan and E. Morton Elms have been named as a nominating committee to bring in at the next meeting of the board the names of three members to have charge of the installing of granolithic sidewalks in the town.

HANSON.

The selectmen have made the following appointments: Police officers, John H. Ibbotson, Antoine Rogers, Simeon Thompson, E. M. Richardson, William E. Thayer, Elmer E. Bates, Frank C. Bearse, Charles E. Staples, Charles Atwood, E. Arthur Howland; auctioneers, Oscar L. Gurney, E. M. Richardson, L. H. Hammond, William G. Elms; sexton, A. L. Dame; sealer of weights and measures, John Seates; weighers of coal, E. A. Howland, John Seates, R. C. Everston; registrar of voters, James McRoberts; measurers of lumber, Charles Atwood, A. C. Sampson, M. F. Bates.

NORTH EASTON.

The date for the annual gymnasium exhibition has been set for the evening of April 15.

The next meeting of the Philathia class of the Congregational church will be held at the home of Miss Julia Rankin, Easton Center, the evening of April 19. The speaker of the evening will be Miss Ethel Taft of the women's board of foreign missions.

The Rev. W. Lenoir Hood has been reappointed pastor of the Methodist church for another year.

BRIDGEWATER.

The parish of the Unitarian church has elected: Clerk, George W. Folsom; treasurer, Harry W. Bragdon; parish committee, A. H. Hobart, Lyman A. Pratt, George L. Rollins, W. P. Sutherland, Mrs. Isaac A. Alden, Mrs. E. L. Cook and Miss Martha Keith.

Miss Elizabeth Perry has resigned her position as teacher of art in the state normal school.

The next entertainment in the normal series will be held the evening of April 15.

MANFIELD.

The parish of the Baptist church has elected the following officers: Moderator, W. C. Winter; clerk, Miss Bertha Guild; treasurer, W. C. Fuller; collector, William E. Winter; deacons for three years, S. Frederick French, Fred Wolley; standing committee, James A. McCool, Clifford Guild and F. Frederick French; trustees, J. E. White, William L. Robinson, P. M. Edwards, Edgar W. Fuller, William Olliff; superintendent of Sunday school, Frank E. Knox.

AVON.

The school teachers of the towns of Avon, Holbrook and Randolph are to hold a meeting soon to make arrangements for a banquet. The affair will take place in May.

The veteran firemen of this town have secured a hand tub and are to enter all of the firemen's musters in the state this summer.

WHITMAN.

The Whitman Savings Bank has elected the following board of investment: Randall W. Cook, George O. Jenkins, Leonard B. Hatch, Albert C. Whitmarsh, Henry W. Chandler, William Spellman and Charles R. Cox.

Parts have been assigned to the members of the senior class of the high school as follows: Valedictory, Miss Addie Ford; salutatory, Howard Sampson; class history, Miss Hazel Fairbanks; prophecy, Miss Elizabeth McCausland; orator, Clinton Butler; the remaining parts are to be assigned later.

The Nonpareil Girls' Club has completed arrangements for a party to be held in Thomas hall, Hanson, the evening of April 22. The committee in charge: Miss Margaret Spellman, Miss Cora Jollie, Miss Maud Mullen, Miss Katherine Ryan, Miss Minnie Crowley and Miss Lizzie Beary.

ABINGTON.

The North Abington Cooperative Bank has elected these officers: President, William C. Brett; vice-president, George H. Sumner; secretary, Ernest W. Calkins; treasurer, Edward V. Boynton; auditors, Henry T. Rochford, Frank N. Sanderson and Ronald McDonald; directors, Nathaniel E. Arnold, Arthur N. Calkins, Daniel R. Coughlin, Joseph L. Greenwood, Arthur L. Merrill, Arthur B. Reed, Edward H. Naylor, G. Webster Orent, John A. Radcliffe, Frank E. Shaw, Harry N. Thomas and Samuel N. Turner.

The high school baseball team will open its season Patriots day.

Burton K. Burbeck, Frank E. Wheatley and George B. Merrill have been appointed census enumerators.

Mrs. Elliot Brown entertained the Woman's Guild at her residence on Washington street Thursday afternoon.

WAKEFIELD.

Rebecca Haven chapter, Daughters of the Revolution, is making preparations for another card party for the benefit of the fund for the Annapolis memorial.

The selectmen will call a special town meeting tonight to provide for extensions of the sewerage system, the purchase of the fire apparatus at Greenwood and the purchase of the Morrill-Atwood Ice Company land, Lake Quannapowitt.

The Wakefield fire department will give its annual concert and ball in the town hall tonight.

Two hundred employees of the Henry F. Miller & Sons Piano Company were the guests of the Y. M. C. A. Thursday evening.

MALDEN.

The will of Lorenzo Sweetser of Forest street leaves \$1000 to the Baptist church at South Chelmsford.

The city has sold \$10,000 worth of public park bonds to George A. Fernald & Company of Boston, and \$5000 in fire apparatus bonds to the same concern.

The annual concert of the musical clubs of the high school will be held Saturday evening in the high school hall.

The police have received from Robert Williams, a schoolboy, a bag containing valuable jewelry which he found in the woods off Highland avenue, and are awaiting a claimant for the property. On a watch among the property are the initials C. C. W.

RANDOLPH.

The Ladies Sewing Circle of the First Congregational church held a supper Thursday evening followed by an address by the Rev. Roy B. Guild of Boston on "The Winning of the West."

The members of the Women's Alliance of the Church of the Unity attended a neighborhood meeting in the Unitarian church, Canton, Thursday.

The teachers of the schools of Avon, Holbrook and Randolph will hold a social and banquet in Odd Fellows hall Wednesday evening. Superintendent of Schools Don C. Bliss of Brockton will deliver an address on "The Waste in School." There will also be a musical program.

MILTON.

J. H. Hare of Boston University has been appointed choir director and soloist of the First Baptist church of Milton. He will assume his duties April 10.

The Men's Club of the Milton Unitarian church will hold their annual ladies night at the Parish hall April 13.

The members of the Milton gymnasium plan to hold a field meet on the gymnasium grounds Saturday afternoon, April 16.

WEYMOUTH.

The Old Colony Woman's Club held its annual children's party in Fogg's opera house, South Weymouth, Thursday afternoon. About 500 boys and girls were present. A drama entitled "The Three Bears" was presented. In the cast were Misses Marie W. Loughton, Favielle H. Anderson, Elvira Rhind, Sarah Calvin and Corinne Barnes. Between the acts, there were piano solos by Miss Mary Loveland.

HYDE PARK.

Cup Bearers circle, Kings Daughters, meets with Miss Florence Fritz, at 37 Blanchard street, this evening.

An address on "Sunday School Teaching" will be given by A. C. Boyden, principal of Bridgewater Normal School, in the Congregational chapel April 18. The Men's League of the Clarendon Congregational church will give a concert April 18.

HOLBROOK.

At the fair of Holbrook commandery, United Order Golden Star, in the town hall Thursday evening, there was a varied entertainment.

The Spring Chickens defeated the Night Hawks at baseball Thursday afternoon, 19 to 15.

NOT only can you secure the very nobbiest of clothes by coming here at prices that will surely please your parents, but you may obtain your

New Boston Civic Club Holds Its First Formal Gathering and Banquet

SECURE A COACH FOR TUFTS PLAY

The Tufts junior play committee has secured as coach William O. Partridge of Arlington, who has had considerable experience in amateur theatrical production. The preliminary trials for the cast of the play were held Thursday with Prof. L. R. Lewis, Frank Seavey and Howard J. Savage of the faculty as judges, and the final trial will be held on Monday.

President Hamilton announces that the Wendell Phillips prize scholarship will be awarded this year to a member of the sophomore class, \$70 a year for the remaining two years of his course going to the successful candidate. The conditions include participation in a competitive contest, either in a public debate or the pronouncing of an original oration. The applicants must also have read the accessible speeches and a biography of Wendell Phillips.

GRAND TRUNK BILL PASSES IN HOUSE

PROVIDENCE, R. I.—The bill granting a charter to the Southern New England Railway Company, to be operated as a branch of the Grand Trunk railway, was passed in the Rhode Island House Thursday.

If passed by the Senate and signed by the Governor, as is expected at this session of the Legislature, the bill will give the Grand Trunk a direct line through Rhode Island, with a seaport outlet at Providence.

TWO NOTED EXPLORERS TO MEET.

PHILADELPHIA—This afternoon in the Academy of Music Commander Robert E. Peary, recognized finder of the north pole, and Sir Ernest Shackleton, the British explorer, will meet on the stage and tell the stories of their adventures. The occasion is a lecture by Commander Peary, to be followed by a reception by the Philadelphia Geographic Society at which Mr. Peary will be presented with an especially designed gold medal.

EVERETT TEACHERS ASK RAISE.

Petition for a raise in salary, on the ground that higher prices of today do not permit teachers living according to their proper station, was presented before the school committee of Everett at a hearing last night by the women heads of the departments in the high school.

TEST FOR BOSTON COMMON SOIL.

The soil of Boston Common will be tested by Mr. Maynard of the bureau of soils of the national department of agriculture for Superintendent D. Henry Sullivan of the public grounds department.

MR. GUILD TO GIVE ORATION.

WALTHAM, Mass.—An ex-Governor of Massachusetts, Curtis Guild, Jr., is to deliver the oration before the graduating class of the high school here June 22 in Asbury temple.

ATTORNEY BRANDEIS SCORES A POINT IN BALLINGER INQUIRY

(Continued from Page One.)

sent full information to the committee. Andrew Christensen, who on Sept. 18, 1909, succeeded L. R. Glavis as chief of the Seattle field division, was Attorney Brandeis' first witness today. He related the circumstances of Mr. Glavis' discharge and the ensuing transfer of records and documents, and declared that notwithstanding an agreement made between Mr. Glavis and himself, the former had taken a bunch of papers out of the office to his room at the Lincoln hotel. Subsequently, Mr. Christensen said, he gave formal notice to Mr. Glavis that he would prosecute him unless the papers were forthcoming, and after this Mr. Glavis brought the papers in.

Among the documents missing, he asserted, were 24 or 25 letters, correspondence secured at Juneau by Special Agent Bowman and relating to the Cunningham claims. It is these letters which in the "defense" claims were found later in Mr. Glavis' effects.

The witness then read a long series of letters which passed between the department and himself in relation to the search to locate missing letters. The correspondence indicated that there were others under suspicion of having retained the missing letters, besides Mr. Glavis.

MAYOR EXPLAINS CIVIC CONTRACT

Mayor Fitzgerald today sent a letter to the finance commission relative to an investigation which the mayor's office has made relative to the heating and ventilating contract at the Abraham Lincoln school. It says in part:

"As requested by you in your letter of April 5, I have thoroughly investigated the award of the contract for heating and ventilating the Abraham Lincoln school to the Huey Brothers Company. The facts in the case are extremely simple. Ten firms and corporations bid upon the proposals as published in proper form by the schoolhouse commission. The record shows that on a contract for over \$24,000 there was a difference of only \$61, or 1/4 of 1 per cent, between the lowest and the second lowest bidder.

"The second lowest bidder, Huey Brothers Company, has executed contracts for the schoolhouse department aggregating \$158,664.47, and has given complete satisfaction in all its dealings with the department. The lowest bidders, F. W. Zemeir & Co., have done no work for the department and possess assets amounting to only a little more than a quarter of the total of the contract. The utmost advantage to be gained by the city, through the acceptance of their offer, consists in a saving of \$61. In the judgment of the schoolhouse commission this advantage is more than offset by the risk attending any contract undertaken by a respectable but untried firm of comparatively limited experience and admittedly slender financial resources."

EQUAL SUFFRAGE NOMINEES LISTED

The Boston Equal Suffrage Association for Good Government is holding its annual meeting in the rooms of the New England Women's Club, 585 Boylston street, this afternoon.

The nominating committee will submit the following ticket: President, Mrs. Quincy A. Shaw; vice-presidents, Mrs. Charles G. Ames, Miss Emily G. Balch, Miss Alice Stone Blackwell, Mrs. James T. Fields, Mrs. Mary Hutcheson Page, and Mrs. O. F. Wadsworth; treasurer, Mrs. Francis H. Williams; directors, Mrs. Fannie Fern Andrews, Mrs. Clara B. Beasley, Meyer Bloomfield, Miss Caroline J. Cook, Miss Mary P. Follett, Mrs. John Lindsey, Mrs. Stanley McCormick, Mrs. Lucia Ames Mead and Dr. Evangeline W. Young.

Following the business session, Miss Lola La Follette will read a short play entitled "How the Vote Was Won."

REVERE HEARING OFF TWO WEEKS

A postponement of two weeks for the hearing of the Revere fire engineers, charged with malfeasance, was made by the selectmen Thursday night at a hearing before which the engineers were not permitted to speak. The postponement was declared necessary to secure data. Later the engineers held a meeting, but took no action. Their term of office will expire May 1. The board consists of ex-Senator Alfred S. Hall, ex-Representative Arthur B. Curtis, ex-Selectman Frank Pray, Thomas R. Willis, Arthur D. Folsom.

TECH MEN POKE FUN AT FACULTY

Technology's Chemical Society held the most original dinner of the year last evening at the Tech Union. The professors present, contrary to custom, were not allowed to speak, students made up to resemble them taking their places. The real professors occupied a table with the sign in huge letters over it, "Kidders' Laboratory."

EXONERATES MR. PRICHARD

Street Commissioner Asa B. Prichard of Somerville, whose department was recently investigated, has been exonerated by the report of the special investigating committee. The investigation was brought about by charges made against Mr. Prichard by Mayor Woods in his two inaugural addresses.

"The Crisis" Tonight in Waltham

High school seniors will produce Churchill drama in theater.

HIGH SCHOOL ACTORS IN "THE CRISIS."

Left to right: Miss Estelle MacCarthy, who plays part of Puss Russell; Elbert F. Moore, who is Stephen Brice in the drama; Miss Beatrice M. Stehman, who plays Eugenia Renault.

WALTHAM, Mass.—Winston Churchill's "The Crisis," after two months of rehearsals, is to be given by the senior class of the Waltham high school in the local theater this evening. It is the first present-day drama ever presented by high school talent in this city.

Eleanor Louise Swain, who had charge of the plays given by the graduating classes of the past two years, is the coach. The leading role, that of Stephen Brice, is to be taken by Elbert Moore. Miss Kathryn Webster as Virginia Carvel will have the leading woman's part. The other parts will be taken as follows: Judge Whipple, Josiah Rutter;

Colonel Carvel, George P. Davis; Eliaphet Hopper, Ernest Nealon; Ephum, Edwin Towne; Clarence Colfax, Robert Savory; auctioneer, William Hill, Catharwood, Martin Garvey; Renault, William Mackay; Brinsdale, Burton Whidden; Mrs. Brice, Stella Banks; Mrs. Colfax, Gladys Sweet; Puss Russell, Estelle MacCarthy; Eugenia Renault, Beatrice Stehman; Miss Brinsdale, Dora Brown; Miss Catharwood, Emily Barker; Nancy, Molly, Farley; Carl Richter, Aubrey Tabor.

Miss Estelle MacCarthy, who plays the part of Puss Russell, has recently been chosen historian of the class. Elbert Moore, who is to be Stephen Brice, has been selected as the class prophet.

PROTEST TO PRESIDENT TAFT FILED TODAY BY WORKMEN

WASHINGTON—Charges against the Bethlehem Steel Company formulated by the striking steel workers of the company were today taken up for consideration by President Taft following the filing of a written brief by the strikers. The President will turn the matter over to the department of commerce and labor. On the point of defective work on government contracts the charges say:

"We charge that during the night work and overtime, defective work is surreptitiously and artificially treated, patched and welded, thereby escaping the vigilance of inspectors who are not required to work overtime by the government.

"That the Bethlehem Steel Company enjoys the benefits of a high protective tariff and is the recipient of valuable government contracts amounting to mil-

lions of dollars annually from which it obtains enormous profits. In spite of these advantages it exacts a maximum of toll for a wholly inadequate minimum standard of living to the barest point of existence.

"We protest against the government giving additional contracts to the company while the inhuman conditions referred to are maintained by the company, and we further protest against exposing the brave defenders of the nation in the army and navy to the dangers of defective armaments."

The brief as filed with the President also contains the charge that Charles M. Schwab forced a delegation of Bethlehem citizens to appeal to the President in behalf of the company by threatening to close down the plant.

TECH CLUB SHOWS GLIDING TROPHY

The Sylvester cup for glider competition won last Saturday by the Technology Aero Club at Waltham has been placed on the trophy shelf in the Tech Union. The cup was won through the efforts of Elisha Fales '12, and F. W. Caldwell '12. A small motor will be installed in a few days and propellers are being built by H. F. Lehman '12 and F. W. Caldwell '12.

The club at present has its headquarters in the Shoe and Leather Exposition building on the Cambridge bank of the Charles river and is holding tests every week on the glider. Tests Thursday afternoon showed a lifting power of over 400 pounds for 200 square feet of surface.

PITTSBURG GRAFT SURPRISE IS DUE

PITTSBURG—A presentment, which is expected to cause surprise, will likely be returned late this afternoon by the grand jury probing the councilmanic corruption.

A. P. Moore, editor of the Pittsburgh Leader, who declared in his paper that he has the names of men "higher up" in the graft scandal, whose names so far have not been mentioned, testified before the grand jury today. Following a conference between Prosecutor Blakely and Detective Robert Wilson today, it was intimated that the detective will possibly employ additional men to aid in the graft and vice crusade.

AVIATION MEET AT MEMPHIS

MEMPHIS, Tenn.—Glenn Curtis and other aviators will fly today. Curtis on Thursday lowered his own start record by three-fifths of a second, getting away from the ground in five and four-fifths seconds.

WORK ON NEW YORK CENTRAL

SYRACUSE, N. Y.—Fireman Bassett was killed and Conductor Wild was injured this morning in a wreck on the New York Central railroad near Rome. None of the passengers were injured.

President Taft Gets Masonic Apron

WASHINGTON—President Taft, who joined the Masons before he became chief executive, was present Thursday night at a meeting of Naval Lodge, No. 4, of this city to watch a few candidates receive the third degree at the hands of Dr. George C. Ober, past grand master of the District of Columbia. In the course of the evening the President obtained a Masonic apron.

There were 250 guests from Hiram lodge, No. 107, of Baltimore present to witness the ceremonies and shake hands with Brother Taft. Capt. A. W. Butt, the President's aide, who rode one of Washington's Masonic goats recently, was with his chief.

LIMIT TO HARVARD'S EXEMPTED HOLDINGS IS REFUSED IN HOUSE

The House of Representatives today at the State House considered the bill providing that real estate hereafter acquired by Harvard College in Cambridge shall be subject to taxation.

The measure failed to pass, a rising vote at the end of the discussion giving a count of 52 in favor and 37 opposed.

By a vote of 59 to 37 today the House also rejected the bill providing for the taxation of all college property.

Mr. Emerson of Boston favored the bill, believing that it is time a halt should be called on the Harvard practice of buying up the most valuable property in the city and thereby taking it out of the tax lists.

Mr. Coon of Watertown, opposing the bill, said several special commissions have reported that the presence of educational institutions imposes no financial burden upon the cities and towns in which they are located.

Mr. Morrill of Haverhill thought it wise to subsidize educational institutions to a proper extent but believed Harvard is holding more exempted property already than is necessary for legitimate purposes; for that reason he thought it should not be permitted to acquire any more to hold free of taxation.

Mr. Myers of Cambridge favored the bill on the ground that the exemption of Harvard property is responsible for the Cambridge high tax rate.

On a voice vote the House refused to substitute for an adverse report a bill to incorporate the Commonwealth Realty Company, Mr. Bayley of Lexington opposing the bill on the ground that the purposes of the petitioners may be accomplished in the form of a voluntary company.

The committee on metropolitan affairs reported a bill authorizing an expenditure of \$700,000 from the commonwealth flats improvement fund for the purpose of carrying out the provisions of existing law relative to the improvement of the commonwealth's property at South Boston.

The education committee reported a bill to reimburse the city of Newton in the sum of \$283.80 for expenditures for the Newton industrial school.

The harbors and public lands committee reported a bill requiring that there shall be at least three bridges over the Boston, Cape Cod & New York canal in the town of Bourne, and adding three selectmen of the town of Bourne to the special joint board which is to determine the location, etc., of such bridges.

The 54-hour bill for women and minors was assigned for debate next Tuesday.

EX-GOV. DOUGLAS SCORES MEDDLING

BROCKTON, Mass.—"The government is meddling too much with the business of the people," said ex-Gov. W. L. Douglas today in an interview with the United Press. "Business in general throughout the country is in a state of unrest and the business inactivity shows that there is not the confidence that there should be in government affairs."

Ex-Governor Douglas with Mrs. Douglas arrived home last evening from their winter's sojourn in the South. They have been spending the winter season at Miami, Fla., and they have been absent since Jan. 26.

ALIENS IN MUTINY ON THE CAIRNRONA

DOVER, Eng.—Five hundred Jews, Montenegrans, Armenians and Swedes, who were rescued Thursday from the burning steamer Cairnrona by the British steamer Kanawha, mutinied aboard the latter vessel today when they were refused permission to land.

Later in the day, however, the refugees were landed under guard for removal to London, where the Cairn Steamship Company, owner of the Cairnrona, has guaranteed to look after them and prevent their dispersal. The Cairnrona is undergoing repairs and will be able to sail in a few days.

NEW PANAMA CANAL RECORD.

WASHINGTON—The excavation record at the Panama canal for the month of March again passed the 3,000,000 mark, the total for the month being 3,067,470 cubic yards. In addition to this 90,502 yards of concrete were laid and 571,293 cubic yards of fill were placed in dams. This comes near being the record month for all classes of canal work. The information came by cable today to the Washington office of the canal commission.

SEEK TO END BIG CAR STRIKE.

PHILADELPHIA—With the arrival of President Gompers and Vice-President Mitchell of the American Federation of Labor today, efforts once more will be made to secure a settlement of the street car strike.

RAISE FOR 5000 WORKERS.

PITTSBURG, Pa.—Employees of the Pittsburgh and Lake Erie railroad were notified today that their wages will be increased six per cent at once. The advance will affect 5000 men.

NEW MANHATTAN WATER BILL.

ALBANY, N. Y.—New York city will tap the Adirondacks for its water supply if a storage scheme approved by the assembly Thursday becomes operative.

DOUBLE LEGAL STAMPS EVERY FORENOON

Houghton & Dutton Co.

NEW ENGLAND'S GREAT CASH HOUSE.

HARVARD GRANTS A FRENCH AWARD

H. W. L. Dana & G., of Cambridge, Granted Fellowship and Pennsylvania Scholarship Is Also Given.

The Harvard corporation has awarded the fellowship of the ministry of public instruction of the French republic for 1910-1911 to H. W. L. Dana & G. of Cambridge. The fellowship was presented to the university by the French minister in order to give an opportunity to American students to investigate the French language and customs, and the

H. W. L. DANA.
Harvard senior, grandson of poet Longfellow, who wins French fellowship at Harvard.

recipient has the right to attend the Sorbonne of Paris for one year, expenses paid, in the study of French comparative literature.

Mr. Dana expects to start from Boston June 28 and will be gone one year. He is a son of Richard Henry Dana and a grandson of the poet Longfellow. He lives on Brattle street in Cambridge, not far from the old Longfellow homestead.

The Huidekoper scholarship, which grants a full term in the Harvard graduate schools, has been awarded to E. H. Wilds of Arnold, Pa., a senior in Allegheny College, for 1910-1911. His study will be the classics. R. H. Tilling of Allegheny has been appointed his alternate.

HITS STUDENTS' SPECIAL TRAIN.

HARRISBURG, Pa.—Seven students, members of the Mask and Wig Club of the University of Pennsylvania, and a number of other persons were slightly injured today when a locomotive hit the club's special train as it was standing in the station here.

HOUSE RESUMES DEBATE.

WASHINGTON—The House resumed debate on the naval appropriation bill this afternoon, with the expectation that before adjournment, it would reach the item providing for two battleships, on which a hard fight had been predicted.

SCHOONER ALMOST RUN DOWN.

Leyland liner Columbian, Capt. J. McDonald, nearly ran down an unknown fishing schooner in the bay early today. Only the promptness of the steamer's officers averted a collision. The Columbian left London March 27.

GOLD DISCOVERY IN CANADA.

OTTAWA, Ont.—Word reached here Thursday afternoon of the discovery of a new gold field at Gale lake, near Bourke Sliding, considerably north of Cobalt. A sample, it is said, assayed 12 per cent.

COLLIER ARRIVES ON HER FIRST TRIP

The fine new collier Transportation, Capt. Arthur L. Crowley, from Baltimore with 6605 tons of bituminous coal, arrived here early today on her maiden cargo trip. The Transportation is a sister ship of the Coastwise, which is now making her fifth trip to Boston. Both belong to the Coastwise Transportation Company.

Both are 370 feet over all, 49 feet beam and 30 feet depth of hold, with a carrying capacity of 6600 tons. The Coastwise was launched Feb. 5 last and the Transportation March 19. Both are under charter for two years, the Coastwise to the New England and the Transportation to the Consolidation coal companies respectively.

SHIPPER'S FAVOR RAILROAD'S PLEA

BUFFALO—The resumption of the hearing on the application of the Buffalo, Rochester & Eastern railroad for a certificate of necessity before the public service commission found the meeting room crowded with commercial men and manufacturers ready to tell why the road is needed.

Shipper after shipper took the stand and told of annoying delays and loss of business due to inadequate railroad facilities out of Buffalo to the East. Most of the trouble was experienced on the Central, whose road the new one will parallel.

PIERIAN CONCERT NEXT WEDNESDAY

The Harvard Pierian Sodality will give its annual spring concert at Sanders theater next Wednesday evening with the following program:

Gluck, overture, "Iphigenia in Aulis"; Schubert, symphony in B minor (unfinished); I. Allegro moderato, II. Andante con moto; pianoforte solos, I. Brahms, Ballade in G minor, II. Max Reger, "Aus meinem Tagebuch," number 3 and number 4; Armas Jaernefelt, "Berceuse"; C. B. Roepper '10, Scherzo.

RAISE \$2300 FOR ACADEMY.

WESTFIELD, Mass.—The feature of this morning's session of the New England Methodist conference was the address given by Bishop James W. Hamilton of Boston on the "Needs of Wesleyan Academy at Wilbraham," and the roll call of the members of the conference, which immediately afterwards resulted in the raising of \$2300 to be used by Principal Charles E. Davis of the academy.

PICK UTICA FOR TERMINAL.

UTICA, N. Y.—New York Central officials have told city officials here that the road intends to make Utica the real division terminal point between New York and Buffalo.

PRICE OF CHICKEN SOARS.

CHICAGO—Chickens sold at 19 cents a pound in the South Water street market on Thursday, the highest price ever recorded here in the history of the trade.

RUSSELL HEARING NEARS ITS CLOSE

Final Arguments Expected to End Today and Judge Lawton Will Take Case Under Consideration.

The closing argument of Atty. Leslie A. Simpson, counsel for the Dakota claimant in the Russell will case proceedings was resumed in the Middlesex probate court this morning. Mr. Simpson is expected to conclude today. The presiding justice, the Hon. George F. Lawton, will then retire to the privacy of his home or office, where he will consider the merits of the issue at stake and make his decision.

In seeking to show that the claimant is not James Rousseau of Massena, N. Y., Mr. Simpson called to Judge Lawton's attention the many witnesses brought from northern New York by counsel for the claimant, who testified that claimant is not that person.

Mr. Simpson paid a glowing tribute to the claimant's wife for her faithfulness and constancy in her husband's behalf during the long trial.

The morning session ended at 12:20 p. m., to be resumed this afternoon at 2:15 p. m. Mr. Simpson on concluding his remarks this forenoon said that he would finish his arguments in behalf of the claimant this afternoon.

SENATE AMBITION BY MR. DICKINSON

WASHINGTON—Senator James B. Frazier (Dem., Tenn.) term will end next March and the question of his successor is one of great doubt. Among those mentioned as candidates is J. M. Dickinson, secretary of war, who it is said will enter the contest if it shows a good prospect of success. Tennessee Democrats here say that Mr. Dickinson is not likely to have much of a chance unless a deadlock occurs.

Benton McMillin, formerly Governor, and a stalwart figure in Tennessee politics, is most talked of as a contestant for the Frazier toga. Luke Wright, former Governor of the Philippines and Representative John Moon may also be to be factors in the situation. Governor Patterson's reelection is believed by his friends to be assured.

FINAL ARGUMENT IN GLOVER CASE

The final argument was made in the Glover will case this forenoon and the matter now rests with Judge McIntire. In summing up his case, Attorney Elmore asserted that as a maker of the will and as an executor under it, he firmly believes now, as he did then, that the will is unbiased and unaffected by undue influence exerted prior to the time it was made. This is the only matter properly before the court, he declared, and went on to state that the contestants were trying to exercise vengeance on an innocent woman. He dwelt on the kindness of Mrs. Glover's disposition.

Always Young

Some men seem always young. The Fancy Cheviots, now so popular, come in very snappy patterns. Boys of from 16 to 60 may be equally well suited here.

\$15.00 to \$35.00

And there's not one man in a hundred whom we cannot fit perfectly.

Browning, King & Company

CLOTHING, FURNISHINGS AND HATS,
407 TO 411 WASHINGTON ST.,
BOSTON.

Pennsylvania State College

McALLISTER HALL, PENNSYLVANIA STATE COLLEGE.

Type of one of the modern buildings showing the progress of "Land Grant" school that is interested chiefly in agriculture.

STATE COLLEGE, Pa.—The Pennsylvania State College located among the mountains of central Pennsylvania offers an interesting example of development from the time of its inception in 1855 as a "farmers' high school" to its present status of 1400 students, a faculty of 150 and five distinct schools.

In 1857 the institution was opened for instruction in agriculture only, and classes were held in one wing of what is now known as the "Old Main" building. This structure built of native limestone is now the center of a large group of buildings containing the schools of agriculture, engineering, liberal arts, mining and natural sciences as well as departments of domestic arts and physical education. In addition to these there is carried on under both federal and state supervision a department of animal feeding.

In 1862 the name of the institution was changed to "The Agricultural College of Pennsylvania" and the same year Congress passed the "land grant act" offering to each state and territory a gift of public land the income from the sale of which was to be devoted "to promote the liberal and practical education of the industrial classes in the several pursuits and professions." With this stimulation and with the aid of federal gifts, state appropriations and private donations the college has gradually established and now maintains five schools.

The college grounds cover over 600 acres of which 60 constitute the campus and serve as a location for the buildings. More than 20 acres are devoted to orchards for experimental purposes; about 40 acres of natural forest provide practical work in forestry and over 100 acres are given exclusively for purposes of experimental agriculture.

On the college campus are many interesting buildings, among which are the auditorium, a gift of Mr. and Mrs. Charles M. Schwab. This building seating 1500 people was erected in 1903 at a cost of over \$150,000. The Carnegie library, given by Andrew Carnegie, occupies a site on the main college avenue nearly opposite the auditorium. Of interest in addition to these are McAllister hall or the college commons, the armory, the engineering building and the chemistry-physics building.

Syracuse University

SYRACUSE, N. Y.—Dean James B. Brooks of the college of law of Syracuse University will go to Chicago for the national missionary congress, which convenes in that city from May 3 to May 6. Dean Brooks was at the head of the Laymen's missionary movement in this city last winter.

The national congress in Chicago is to be the largest meeting of its kind ever assembled in America. Preparations are being arranged for 4500 delegates and representatives from every part of the United States.

Clark University

WORCESTER, Mass.—The faculty of Clark University will make shortly more important changes in the organization of the department of mathematics, physics and chemistry, by which Clark College students may enter the department free for study, providing they will be candidates for master degrees in the university.

The university faculty has added to its teachers Dr. John Charles Hubbard, who has been assistant professor of physics in Clark College, and made him secretary of the new division.

Dr. Arthur C. Webster, who took his doctor's degree from the University of Berlin some 20 years ago and who is professor in physics in Clark University, has been appointed by the trustees of the university a delegate to represent Clark University and college at a four-days' celebration of the University of Berlin, Germany, in October.

Rhode Island College

KINGSTON, R. I.—Arrangements are being made between the Rhode Island state college and the Rhode Island state normal school of Providence to have these two institutions give a joint course. When the present plans are completed a student may obtain a thorough training in agriculture at the state college and later combine with it the professional training given at the state normal.

Brown University

PROVIDENCE, R. I.—The committee in charge of the annual banquet, to which preparatory school men are invited, with the hope of interesting them in Brown University, will be held April 23.

Prof. J. Q. Dealey of the department of social and political subjects will take his sabbatical year in Europe next year. His place will be filled here by Prof. W. F. Dodd, now teaching at Johns Hopkins University in Baltimore.

Prof. George G. Wilson has been elected an associate at the annual convention of the Institut de Droit International at Paris.

New Hampshire College

DURHAM, N. H.—The Granite, the junior year book, went to press on April 1.

Within a few weeks the college will obtain its electricity for lighting purposes from the Rockingham Light & Power Company of Portsmouth, N. H., and the college's own plant will be used for experiments for the electrical engineering department.

THE HOUSEKEEPER

Hints That May Help.

BLOUSE WAIST.

The pretty blouse that is closed at the front is one much used this season and is always desirable.

It is easy to adjust and it is generally becoming. This one is made in surplice style and can be finished as illustrated or with a standing collar as liked. Plaid Scotch gingham with the shield and trimming portions of plain chambray makes this one, but the waist is adapted to every seasonable material and both to the gown and to the odd blouse. It is quite dressy enough for foulard, taffeta and other silks of the sort, while it is perfectly adapted to the washable materials.

6630. Blouse Waist. 34 to 42 bust.

Material required for the medium size 3½ yards 21 or 24, 3 yards 32 or 17½ yards 44 inches wide with ¾ yard 27 inches wide for trimming.

The pattern (6630) may be had in sizes from 34 to 42 inches bust measure at any May Manton agency, or will be mailed on receipt of price (10c.). Address 132 East Twenty-third, New York; or Masonic Temple, Chicago.

SOME TRIED RECIPES.

CEREAL TOAST.

A dainty dish for Sunday night tea is cereal toast. For a small family, clean one moderate-sized stalk of cereal, using all the stalk, root and such leaves as are blanched and tender. Cut in small pieces, put over the fire and boil till tender, taking care not to have too much water, so that it may boil down and retain all substance. Add a generous pint of milk, keep over the fire until scalded, then thicken very slightly with flour, lastly adding a piece of butter the size of a hickory nut. You will need eight slices of toast, which should be brown and crisp. Butter these and lay in a deep covered dish. Turn the cereal gravy over it and serve immediately. Do not dip the toast in the milk.

JERSEY TEA CAKES.

Cream well together one quarter pound of powdered sugar with the same quantity of butter. Beat thoroughly four eggs and add them to the sugar and butter. Sift in gradually a pound of flour and half a grated nutmeg. Knead all together, cover with a cloth and set in a warm place. Divide the mass into small pieces each about the size of an egg, and roll each piece on a floured board to an oval about half an inch thick. Cut with a floured knife three parallel slits in the middle of each about half an inch from the edges. Draw up the two slit sides together and drop each cake into a pan of boiling lard. When they are well browned all over remove them with a fork. Drain them on brown paper and sprinkle with powdered sugar.

GINGERSNAPS THAT SNAP.

Into a coffee-cup put one teaspoonful of soda, a tablespoonful of vinegar, two tablespoonfuls of hot water and four tablespoonfuls of shortening. Then fill the cup with good black molasses. Do this twice, and add half a cupful of brown sugar, cinnamon, ginger and cloves, if desired, and flour enough to roll it. Bake in a moderate oven. Divide the quantities for a small baking.

STUFFED APPLES.

Hollow out the cores of good baking apples and stuff with a mixture of chopped dates, nuts and figs, and then bake them. Serve with whipped cream and a big cherry on top of each. These make a most delicious dessert served with lady fingers.

IN THE SHOPS OF ADVERTISERS.

The Boston Art Club, so conservative in the past, has yielded at last to the policy of expansion. The new additions—the men's dining room, ladies' dining room, card rooms, reception room, parlor, private dining rooms and bedrooms—have a significance that could not be attached to a similar movement on the part of a club whose object is purely social.

If Boston does not today lead America in the actual number of paintings and pieces of sculpture produced, she certainly occupies no second place in the art of intelligent appreciation and criticism.

In the Boston Art Club there are many eminent painters and sculptors, and numerous examples of their work beautify the house. Every room is an art gallery in a way, but the beauty of any room is dependent upon more than the pictures on its walls: the walls themselves, the draperies, the rugs, the furniture and the woodwork must be pleasing in themselves and combine in a harmonious and artistic whole: there must be no discordant note, no obtrusive color. That is what we should expect in the house of artists and critics, and that expectation is most agreeably realized in the new rooms of the club.

Newness is generally an adverse factor in furnishing. Time has a helping hand in such matters, but it is hard to see just where it could improve on the work done by the Paine Furniture Company to whom the furnishing and decorating were entrusted. The papers, carpets, draperies, furniture and color tones are most happily chosen and combined to make each room really distinctive and charming. Each room is different. Each is a success. They are more than just artistic. The Paine Furniture Company has most deftly struck the note of appropriateness, and the rooms are all livable rooms. There is a look of comfort to them. That is a triumph in itself. To admire a room and to find it inviting are two separate things, but here they go together. It all goes to prove that the house of critics proved its critical

facilities in its selection of the firm to do this important work.

Chandler & Co. of Tremont street, near West, announce a "great presentation" of suits for April, including over a thousand new suits, in the finest materials and reserved models, at special prices. The materials, trimming and imported merchandise from which these suits were manufactured have been closed out and will not be ordered out again. Chandler & Co. also announce an April millinery sale, which includes about 250 new hats at special prices, ranging from \$10 to \$25. These moderate prices are only made possible by the recent arrival from Paris of some of the finest French millinery materials bought by Chandler & Co. in quantities sufficiently large to secure for them the prices given large wholesale importers.

It is a happy discovery for a merchant to find that customers after carefully looking over the stock of other concerns return and complete their purchases in his store. It is a sure indication that the quality and price of the goods are just right. This has been the experience of H. R. Lane & Co. of 34-38 Chauncy street, wholesale dealers in oriental and domestic rugs and carpets.

Jordan Marsh Company have on sale in their new automobile apparel section on the street floor of the main building a large variety of full weight ulster coats made with special attention to the needs of motorists, and particularly suitable for spring weather. These comprise Mackinaw ulsters, double breasted ulsters and London-made Burberry gabardines and slip-ons.

In their new shoe parlor on the third floor of the main building is to be found a magnificent assortment of women's fashionable footwear from America's leading makers. Every variety of shoe, many of them of exclusive design, can be had at very moderate prices.

Every housewife knows that there is nothing so handy to have in the larder as a supply of sardines. For impromptu luncheons and suppers they are always suitable and their toothsome qualities never pall. The Rainbow imported sardines are noted for their pungent and appetizing flavor and as in the process of curing only the perfect fish are selected they appeal to the eye as well as to the appetite. DeLong, Seaman & Co., 156 Milk street, Boston, will send postpaid on receipt of 25 cents in stamps or coin, a medium-sized package of these round can Rainbow sardines, if it is inconvenient to call at their store.

E. T. Slattery Company are making a special offering of new and exclusive India and satin foulard dresses of very refined style and model, which they claim cannot be made by dressmakers for less than two and a half to three times the price. The dresses are in three special lots, classed as models No. 1, 2 and 3, and are being sold at a uniform price of \$25—the regular price being \$37.50.

The charm and grace of Mile. Claff's custom-made corsets are the result of skillful designing, choice materials and the personal supervision of Mile. Claff herself. These new ready-to-wear corsets can be seen at La Parisienne Custom Corset Parlor, 420 Boylston street.

FIELD ARTILLERY TO GIVE A DRILL

Battery A, 1st battalion field artillery, is to give a rough riding and exhibition drill at the Park riding school next Tuesday evening. Governor Draper, commander-in-chief, Brig-Gen. William H. Brigham, chief of staff, and Maj. Guy Murchie, aide-de-camp, will be in attendance. The affair promises to be of interest to those who desire to see military horsemanship.

The administration will also be represented at the skating carnival in aid of a Sharon institution which is to be held in the Boston Arena next Monday afternoon and evening. Brig-Gen. William H. Brigham, Maj. Guy Murchie and Lieut. Freeman Hinckley will represent the Governor in the afternoon and Maj. Ira Vaughn, Maj. Talbot Aldrich, Capt. William G. Pond and Capt. Edward L. Logan in the evening.

At the Railway Terminals

The Boston & Maine road is rebuilding and strengthening where necessary all bridges on the Massachusetts Central road for the purpose of using heavier power on both freight and passenger trains between Boston and Northampton.

The private Pullman car Constitution occupied by Larz Anderson and party arrived at South station on the Federal express early today en route from Washington to Boston via the Pennsylvania and New Haven roads.

The Adams Express Company received an extra large shipment of western horses from the Pittsburgh yard yesterday via the Pennsylvania and New Haven roads, consigned to the Boston and Brockton markets.

The Pullman Company and the Boston & Albany roads passenger department report eastbound business extremely heavy for this time of the year.

FAMOUS HOTEL WAITER GONE.

Horace Hemsley, probably the best known head waiter in Boston, and by thousands familiarly called "Horace," who has been in the employ of Youngs hotel 50 years, passed away on Thursday. He was famous for his courtesy and kindness and was popular with all patrons and fellow employees alike. He was reputed to have saved a comfortable fortune.

VETERANS OF GRAND ARMY CLOSE STATE MEETING AT DINNER

Grand Army men of Massachusetts closed their forty-fourth annual encampment Thursday afternoon with a dinner at the American house. The dinner was marked by an exchange of political amenities between Governor Draper and Mayor Fitzgerald, in which it was proposed by the latter that if Governor Draper would consent to the nomination of Mayor Fitzgerald as lieutenant-governor, the mayor would see that the Governor received as many Democratic votes as Fitzgerald received Republican votes.

A pronounced boom for John E. Gilman as the Massachusetts candidate for commander-in-chief in the election at the national encampment at Atlantic City in September appeared. Mr. Gilman was praised by every speaker and assured the support of Rhode Island, Maine, New Hampshire and Massachusetts. Retiring Commander John L. Parker was toastmaster, and introduced as speakers Governor Draper, Mayor Fitzgerald, Commander-in-Chief Samuel R. Van Sant, Department Commander McCausland of Maine, Department Commander Stevens of New Hampshire, Department Commander Jellison of Rhode Island, Capt. Charles S. Damrell of the Ancient and Honorable Artillery Company, Capt. John S. Barrows, of the Lancers and Commander-in-Chief Edward J. Gihon of the Spanish War Veterans.

Comrade John S. Parker then introduced the new department commander, J. Willard Brown, and then stepped down and took his place in the ranks. The officers-elect were installed by Commander-in-chief Van Sant. Commander Brown announced the following appointments on his staff, and they were also installed:

Assistant Adjutant-general, Israel H. De Wolf of post 130 of Somerville; assistant quartermaster-general, Daniel Eldridge of post 121 of Hyde Park; inspector, Rupert J. Chute of post 60 of Franklin; judge advocate, C. W. Wood of post 10, Worcester; chief mustering officer, Charles Thompson of post 75 of Stoneham; patriotic instructor, Charles G. Parker of post 36 of Arlington.

Other Military Societies Conclude Boston Meetings

The Woman's Relief Corps, department of Massachusetts, closed its thirty-first annual convention with a reception Thursday evening in the Shawmut Congregational church, South End, at which department President Mrs. Elizabeth P. Sawyer presided. The election of the three remaining members of the department executive board resulted as follows: Mrs. Lottie A. Barker of Orange, Miss Susie F. Burton of Dorchester, Mrs. Viola Burpee of Westminister.

The Daughters of Veterans concluded their convention in Chipman hall late Thursday with the election of these additional officers: Chaplain, Mrs. Annie T. Cuzner of Dorchester; treasurer, Mrs. Emma Metcalf of Leominster; patriotic instructor, Mrs. Anita C. Warren; inspector, Mrs. Grace M. Brock of Leominster.

The Sons of Veterans, at the close of their annual encampment Thursday, in Lorimer hall, had chosen as their division commander George M. Tucker of Medford, for senior vice-commander Frank H. White of Boston and for junior vice-commander Charles W. Fuller of North Adams. Those elected as members of the council were Frank E. Warren of North Abington, E. Lawrence Payne of Randolph and William T. Tisdale of Brighton; delegates to national encampment, George E. Hunt of Everett (at large), H. J. Perry of Lynn, J. H. Haggerty of Somerville, Guy Ham of Dorchester, John E. Wilcox of Chelsea, O. J. Sebolt of Arlington, Rev. W. F. Wilson of Amesbury, Herbert A. Mayo of Washington county, N. J.; Benjamin H. Hunt of Dorchester, Walter B. Ambler of Natick and Frank Kirchgasner of Cambridge. The installing officer was Orange H. Cook of Melrose, past division commander.

The result of the election of the Massachusetts division, Sons of Veterans auxiliary, Thursday, in the Park Street church was as follows: President, Mrs. Lillian F. Burnham of Springfield; vice-president, Miss Lillian Carr of Peabody; members of council, Mrs. Stella Richards and Miss Laura Ernest; treasurer, Miss Lottie Ford; patriotic instructor, Miss Lizzie Flavell; delegate-at-large to national convention, Miss Louise Young; inspector, Mrs. Flora Whitney; chief-of-staff, Mrs. Grace Tenney.

BRITISH GUIANA DUTY IS RAISED

GEORGETOWN—Sir Frederick Hodgson, the Governor, declared at a recent session of the Combined Court, the Legislature for British Guiana, that he recommended a readjustment of duties rather than an increase of taxation to meet the deficit estimated at about \$50,000 with which the financial year would close. As a result of the deliberations of the court a surtax of 5 per cent was placed on both ad valorem and specific duties.

Life of MARY BAKER EDDY

This sympathetic and instructive biographical sketch of Mrs. Eddy deals with her ancestry, childhood and early experiences, her later struggles and wonderful accomplishments in the founding and direction of the great religious movement of which she is the head. This volume has proven of great interest and benefit to students of Christian Science.

Four Hundred Pages. Handsomely illustrated. Beautifully printed and bound. A particularly appropriate gift to those interested in Mrs. Eddy and her life work. Price, postpaid, \$3.00. Special "Edition de Luxe," just out, \$5.00. This book may now be purchased through any Reading Room.

Tech Ready for Senior Week

Elect marshals and class day committee.

TECH CLASS DAY HONOR MEN.

Newly elected marshals who will have charge of the class day exercises at the Massachusetts Institute of Technology. Reading from left to right they are as follows: Philip Dunbar Terry of Waterville, N. Y., third marshal; Allan Adams Gould of Newton Upper Falls, Mass., second marshal; Frank Frederick Bell of Bristol, Pa., first marshal.

WITH the election of the marshals for the annual class day rites at the Massachusetts Institute of Technology and the election of the class day committee, everything is ready for the preparation of the program of senior week, which begins on Monday evening, May 30, with the concert by the Allied Musical Clubs to the members of the graduating class at Huntington hall.

Frank Frederick Bell of Bristol, Pa., the choice for first marshal, has taken a prominent part in college activities ever since his entrance. He played both years on his class football team and took points in the hurdles in all the class meets. Last year he was picked to take points for Tech in the intercollegiate in the high hurdles, but did not compete. He was a member of the class Technique electoral committee and was finally made treasurer of the board of editors of that publication. At present he represents the class on the institute committee.

Allan Adams Gould of Newton Upper Falls, the second marshal, is best known as a member of the varsity hockey team for the past four years, on which he has played three years in the position of point and one year as forward. He also ran on his class relay team and was a member of the Technique electoral committee. Last year he held the position of treasurer of his class and was on the junior prom committee and this year is vice-president of the class.

Philip Dunbar Terry of Waterville, N. Y., the third marshal, was a two years' veteran of the class football team and president of the New York State Club and member of the institute committee. Last year he was chosen vice-president of the class and was associate editor of Technique, assuming the duties of chairman of the board on the resignation of Douglas C. MacMurtrie, the editor-in-chief.

The other members of the class day committee are: Karl D. Fernstrom of Norfolk, Va.; Robert S. Breyer of Houston, Tex.; Philip W. Burnham of Waltham; Maurice S. Chapin of Springfield, Herbert S. Cleverden of New York city, Frederick A. Dewey of New York city, Charles E. Dole of Quincy, Clifford C. Field of Minneapolis, Frederick A. Hurley of Dedham, Harold Lockett of Chicago, Harold C. Manson of Dorchester, William J. O'Hearn of Brookline, Bergen Reynolds of Somerville, William M. Schofield of Newton, Nathaniel S. Seeley of Flushing, N. Y., James S. Snedden of Elizabeth, N. J., Edward Stuart of Boston, Merrill W. Tilden of Chicago, Curtis C. Webb of Cambridge, Donald V. Williamson of Brookline, Richard C. Goodwin, Jr., of Norwich, Conn., president of the senior class.

ONLY FOUR DOORS

from the thick of the fray—the Summer and Winter Street corners—there is a haven of rest and refreshment for the busy shopper. It is wonderful what courtesy can do and bright tasteful decorations and comfort and delicious ices to send you on your way again rejoicing. Our mission in life is first aid to the shopper and our inviting store is right at hand.

DEMOCRATIC HOPES CENTER IN TWO MEN IN FOURTH DISTRICT

It seems to be quite evident to careful observers at the present moment that the Democrats in the fourth congressional district will have to take their choice of two men as the nominee of the party this fall. These are ex-Senator John J. Mitchell of Marlboro and Representative Frank H. Pope of Leominster.

Mr. Mitchell was the unsuccessful candidate against Congressman Charles Q. Tirrell in 1908. He made quite a successful campaign, but fell a good deal short of an election. Mr. Pope has proved to be a remarkable vote-getter in his representative district. He was elected to the Legislature last fall by something like 750 majority over his Republican opponent, notwithstanding the fact that the district is nominally Republican. He is a conservative Democrat, and that vote shows that he has a great many friends in the Republican party.

Democrats think there is a preponderating sentiment in the district for Mr. Pope, and in many quarters the hope is expressed that Mr. Mitchell will forego his candidacy this year and allow Mr. Pope to be nominated. A number of Democrats claim that if this is brought about there is a good prospect of the election of the Democratic candidate.

Congressman Charles Q. Tirrell is understood to desire a renomination. He has served a number of terms in the House, and has the reputation of having attended most assiduously to the desires of his Republican constituents. They admit, however, that there is quite a feeling in favor of a new candidate, mainly because of a sentiment toward rotation in office, but they believe Mr. Tirrell has sufficient strength among the Republicans of the district as a whole to secure a renomination.

There are several men in the Fitchburg end of the district toward whom the Republicans seem to be looking to lead a contest for the nomination. A man who is regarded as one of the most popular possibilities is ex-Senator George R. Wallace of Fitchburg. Mr. Wallace is understood not to be desirous of a congressional career, but it is felt by many Republicans in that section of the district that he might consent to run if the demand upon him were made by his party.

Councilor J. Lovell Johnson, also of Fitchburg, is regarded by the party leaders as another popular man who might secure the nomination if he were disposed to enter the contest in case ex-Senator Wallace refused to be a candidate.

Democrats and Republicans both concede that either of these two men would probably be able to carry the district safely under ordinary circumstances. In 1908 Congressman Tirrell polled 18,842 votes, while Mr. Mitchell received 15,431. The district normally, however, is probably Republican by a somewhat larger plurality than this vote would indicate.

Already there are signs of trouble in the eleventh congressional district. Congressman Andrew J. Peters desires the Democratic renomination, but it is intimated that if he can prevent it Mayor Fitzgerald will do so, as he intends, if possible, to punish Mr. Peters for supporting Mr. Storow for mayor.

The district is a pretty close one, and it was supposed to be slightly Republican when it was formed, but Mr. Peters has always had enough Republican supporters to push him through. If he is displaced for the nomination the politicians believe the district will swing back into the Republican column, if the Republicans make a strong nomination. If they dispute over the nomination it will be more than likely that any Democrat would win.

The Republican leaders realize that it is up to them to encourage strong congressional nominations all along the line, as these will help the state ticket and result in bringing out a large vote, as well as aid the casting of straight party ballots.

BIG IRON GIRDER FALLS ON TRAIN

Several persons received slight injuries when a horizontal overhead girder on the roller draw of Fort Point channel drawbridge fell across the rear portion of the last coach of the 7:41 a. m. train from Mattapan on the New York, New Haven & Hartford railroad near the South station at about 8 o'clock this morning. The traffic was not delayed, and the train pulled directly into the South station on schedule time, and the wrecked car was sent to the repair shops.

MARSEILLES STRIKE STATUS.

MARSEILLES.—The strikers here expect the declaration of a sympathetic strike by the naval reservists and dockers at Bora, Algeria. A dozen ships have sailed with mixed crews of reservists and bluejackets.

MOVE AGAINST GLASS COMPANY.

PITTSBURG, Pa.—The special federal grand jury Thursday recommended the indictment of the Imperial Window Glass Company on a charge of being an unlawful combination in restraint of trade.

LEOMINSTER SCHOOL CONTEST.

LEOMINSTER, Mass.—The Wachuset interscholastic prize speaking contest will be held at the high school here April 15. The high schools concerned are Leominster, Fitchburg, Gardner and Milford.

In the Realms of Music

HELEN REYNOLDS TRIO.

Helen Reynolds, violin; Katherine Halliday, 'cello, and Margaret Gorham, piano. They will give a recital in Chickering hall Wednesday evening, April 13.

THERE is the kind of orchestral interlude which separates the action of one scene from another. Such an interlude either may have a general relation with the progress of the drama, as is the case with the "Cavalleria" intermezzo; or it may refer directly to what is happening on the stage, as in the case with the "Navarraise" sleep music. Then there is the interlude which fills in the time which the stage manager requires to make the shift from one scene to another. In an interlude of this kind the purpose of the music is to take the imagination of the listener from the mood of the first scene into that of the second, and so maintain dramatic continuity. This musical link may consist of only a few notes, like the short passage for bass instruments with which Boito in "Mefistofele" joins the scene on the bastions of Frankfurt-on-the-Main to the first scene in Dr. Faust's study. Or the orchestra may continue the mood of events that are left behind, while interrupting fanfares of horns and trumpets hint at events that are coming; as happens toward the close of "Meistersinger," where Wagner with a brief interlude joins the quartet scene in Hans Sachs' house to the scene of the Prize song festival in Pegnitz meadow.

An operatic interlude wherein the director of the music has to make extreme demands on the technique of the stage director is that which accompanies the moving scenery in the first act of "Parsifal." Here, when all goes well, the conductor has only to lead his music right along from the point where Gurnemanz and Parsifal begin their walk through the forest to the castle of the Grail; and when he comes to the page of the score on which is written the chorus of the knights, the chapel scene will be disclosed on the stage and the procession of the knights will be ready to start. The moving forest of Monsalvat may sometimes balk, even in a "Parsifal" production given at higher than ordinary grand opera prices; it balked in the Boston performance by the Metropolitan company last January. Things may go contrary to plan when the problem of adjusting stage management to orchestral interlude is comparatively simple, as happened when the shift was made from the scene of Melisande's tower to that of the underground castle vaults in the recent Manhattan performance of Debussy's "Pelleas and Melisande."

Wagner would never have thought of writing orchestral interludes so loosely connected with the action of the drama as are most of those in Debussy's opera; even when the atmospheric effect of Debussy's musical joining of scene to scene in "Pelleas and Melisande" is granted, it is a question whether the work would not be better if the scenes were changed in the usual way. A tactful composer of interludes is Massenet, who put a nocturne between the two acts of "Navarraise" and a meditation between the first and second tableaux of "Thais," because in each case he had a definite musical theme and saw a clear dramatic use for it. He has joined in his characteristic way the fourth and fifth acts of his new opera, "Don Quixote," by an orchestral interlude which voices Dulcinea's regret at shattering the ideals of the knight.

NOTES.

Henry Russell, the director of the Boston Opera Company, is in New York in conference with the directors of the Metropolitan opera and Chicago opera. He will sail for Europe on Saturday by the White Star liner Adriatic. Mr. Russell's European headquarters will be at the Paris office of the Boston Opera Company, 25 Rue Spontini.

Boston opera stock to the amount of \$29,000 has been subscribed in the last few days. Most of the new stockholders are exercising their privilege of entering their applications for seats for next season ahead of the general public.

Miss Alice Nielsen of the Boston Opera Company made her first appearance as a Metropolitan singer in Chicago at the Auditorium theater Tuesday evening in "Rigoletto."

Miss Loie Fuller appears at the Boston opera house at a special matinee Saturday at 3 o'clock in selected dances.

from her repertoire. She will be assisted by Mme. de Swirsky, Paul Jones Chute and other soloists.

The Helen Reynolds trio will give a concert of chamber music in Chickering hall Wednesday evening, April 13, at 8 o'clock. Louis Schalk, baritone, will assist. The program includes the Hayden trio in C major, No. 3; the Wolf-Ferrari trio in F sharp major, op. 7; and three movements from Schumann's trio in D minor, op. 63.

MR. LODGE SPONSOR FOR A BILL SEEKING COLD STORAGE LIMIT

WASHINGTON—Chairman Lodge on Thursday introduced in the Senate a bill to meet the recommendation of the joint committee that a limit should be put on the use of cold storage for the purpose of maintaining or advancing prices artificially. The committee believes such a time limit "will tend to an equalization of prices and in some cases to reduction," said Mr. Lodge.

The bill would provide that food kept in cold storage for more than one year should be considered adulterated, and that any food taken out of cold storage and erroneously marked as to the time it had been in storage should be regarded as misbranded, in violation of the pure food law.

The committee, through Mr. Lodge, also asked the Senate for instructions in the matter of continuing the investigation into the cost of living. A tentative plan for the continuation of the work was submitted. It was estimated that four months would be required to complete the work and that it would necessitate an expenditure of \$65,000.

MIDDLESEX COURT TO BE ENLARGED

Bills will be asked for within the next two weeks for the construction of two new courtrooms together with the necessary ante-rooms at a cost of not more than \$35,000, in the upper story of the probate court building in East Cambridge. These rooms will be of the same size as the rooms now used on the first floor, and will relieve the congestion now so noticeable.

The commissioners of Middlesex county were recently authorized by the Legislature to have this work completed.

GOOD TEMPLARS ELECT OFFICERS

The Grand Lodge of Massachusetts of the International Order of Good Templars elected officers as follows in Berkeley hall late Thursday:

Grand Chief Templar, Herbert E. Phinney; Grand Councilor, S. F. Goldthwaite; Grand Vice-Templar, Mrs. Annie F. Dyer; Grand Juvenile Templar, Ernest R. Knipe; Grand Secretary, George Lee; Grand Chaplain, J. E. Thomas; Grand Marshal, William E. Warren.

RAILROADS RAISE WAGES.

ROANOKE, W. Va.—The Norfolk & Western today announced an increase of six per cent in the wages of all employees receiving less than \$155 a month whose wages have not been raised since Oct. 1 last.

SAVANNAH, Ga.—The Central Railway of Georgia has granted its engineers a wage increase of five per cent.

MAJOR HIGGINSON'S LECTURE.

The lecture by Maj. Henry L. Higginson on "The Life of Alexander Agassiz," which was to have been given before the members of the Harvard Union tonight, has been postponed until next Wednesday evening at 8 o'clock.

MAYOR FITZGERALD MAKES SECOND LOT OF CIVIC OFFICIALS

The names of Maj. James E. Smythe to be superintendent of the municipal printing plant, Charles H. Slattery to be city treasurer and Thomas M. Babson to be corporation counsel headed the second list of appointments sent to the civil service commission today by Mayor John F. Fitzgerald. The mayor made the announcement of his selections late Thursday afternoon and will forward the names to the State House today.

The name of Felix W. McGettrick, which was announced Thursday afternoon for membership on the board of assessors, was also included in this list, and the following names for unpaid boards:

Dr. James J. Minot of 188 Marlboro street, ward 11, to be a consumptive hospital trustee.

Mrs. Margaret J. Gookin, 356 Seaver street, ward 20, to be a member of the overseers of the poor.

Patrick J. Brady, 406 Arborway, ward 23, to be a member of the board of overseers of the poor.

President Cyrus S. Hapgood of the Brighton abattoir Thursday called upon Mayor Fitzgerald at city hall and protested against the absorption of the abattoir site into the park system. The mayor talked the matter over with Dr. Samuel H. Durgin of the board of health and directed Dr. Durgin to renew the license of the abattoir when it comes before the board for renewal, but only for a period of two months.

CONFER TONIGHT ON 1915 OUTLOOK

LEWIS E. PALMER.

New publicity secretary of the Boston 1915 organization, who comes to the position from New York.

The members of the Boston 1915 neighborhood welfare conference will meet tonight at 6:30 o'clock in Gilbert hall, Tremont Temple, for a "get-together" supper to obtain a clear understanding of the nature of settlement and improvement association work and to discuss the possibilities of their correlation. There will be three short addresses by Mrs. Eva Whiting White on "The settlement"; Dr. Melville F. Rogers on "The Improvement Association"; and Robert A. Woods on "Their Correlation."

This will be the first meeting connected with the Boston 1915 movement attended by Lewis E. Palmer in his capacity as publicity secretary for Boston 1915. Mr. Palmer assumed his new duties Monday and is familiarizing himself with the scope of the important work before him. Mr. Palmer graduated from Cornell University in 1905 and went to New York to work on the Municipal News, a popular engineering paper. After passing through two changes in the management that paper became the present Survey, and Mr. Palmer was appointed assistant editor. He also had charge of the Survey press bureau. Mr. Palmer left this work for the work in Boston.

COMMITTEE REPORT ADVERSE TO INCOME TAX IS SUBMITTED

The committee on federal relations has reported adversely on the resolve for the income tax amendment to the federal constitution. The only dissenters in committee were the two Democratic members.

ALD'S WITNESS IS UPHELD. NORWICH, N. Y.—As evidence of their confidence in him Norwich Republicans have just made Harvey J. Daniels, former clerk for Jotham P. Ald, chairman of their town caucus.

MR. BRYAN HAS GRANDSON. TUCSON, Ariz.—A son has been born to Mr. and Mrs. William J. Bryan, Jr.

CITY PLAYGROUNDS EXPERT IN FAVOR OF MORE LIBERAL FUND

(Continued from Page One.)

for less money spent on supervision than the school committee now spends, while without supervision experience everywhere shows that playgrounds are of little value and may become worse than useless.

"If we cannot afford this \$23,000 for supervision, then our playgrounds, which have cost, I believe, some \$2,500,000 and are probably worth more than that today, ought to be sold and the children left to play in the streets. I for my part believe that we can afford it."

This playground work is divided, as I have said, into two parts, the 20 playgrounds for boys carried on in the spring and fall, and the 30 school yards and sand gardens for the smaller pupils. The boys' playgrounds are carried on by submasters of the schools, one for each playground, who for a hundred days' work are paid \$200 a year. These masters pay special attention to getting the boys from their schools to the playgrounds afternoons and Saturday mornings. Saturday afternoons on these playgrounds are left for the big boys and men.

MONEY ASTRAY IN MARCH MAIL.

WASHINGTON—During March more than \$5000 went astray in the mails, and through the diligence of the dead letter office \$4193.71 of it was returned to the senders. More than a million pieces of mail matter went to the dead letter office during that month because they did not bear return directions. That number was nearly 80,000 more than in the corresponding month in 1909.

In these figures Postmaster-General Hitchcock finds added arguments in support of his contention that no legislation should be enacted which would stop the government from printing return cards on its stamped envelopes.

MANDOLIN CLUB NAMES OFFICERS

—The Harvard freshman mandolin club has elected these officers: Leader, A. T. Day of St. Louis, Mo.; president, G. H. Bigelow of New York city, and secretary-treasurer, J. A. Cook of New York city. The leader, hereafter, will direct all rehearsals which have been in charge of a coach. The first public concert of the club was held on April 7, in Faneuil hall, at the New Voters' festival.

The Harvard Union at its election on Thursday chose again Maj. Henry Lee Higginson '35 as president. There were 452 votes cast, five less than last year.

PACIFIC PROPOSES COLLEGE DEBATES

LOS ANGELES, Cal.—Annual debating contests between three eastern colleges and three California colleges are to be held in this city and eastern cities if the plans proposed by students and faculties of the state colleges are carried out. The colleges represented are Cornell, Yale and Harvard for the East and the University of Southern California, Stanford and the University of California.

REJECTS INCOME TAX RESOLVE. The federal relations committee of the Massachusetts Legislature Thursday by a vote of 9 to 2 declared that the resolve for an income tax amendment to the federal constitution ought not to pass.

SCHOOL COMMITTEE MEETING. Owing to the inability of Dr. Scannell to be present the special meeting of the school committee announced for last evening was postponed until this evening at the same hour, 5 p. m.

Chickering Pianos

THE exquisite quality and depth of tone, the delicate and responsive action, the wonderful evenness of scale, for which Chickering pianos are noted, all bear testimony to the perfection of the materials used in their construction and the consummate care and skill exercised in the assembling of their parts.

REALTY EXCHANGE MEMBERS BANQUET AND HEAR SPEECHES

The 300 or more members and guests who attended the twentieth anniversary dinner of the Boston Real Estate Exchange, held at the Hotel Somerset Thursday night, voted it one of the most enjoyable affairs of its kind ever held by that organization.

A guest and speaker who aroused marked interest was Patrick Francis Murphy, a former Bostonian, now of New York, famed as an after-dinner speaker of a keen and most original type of wit. He captured his audience from his first utterance.

Other speakers included Frederic H. Viaux, who gave a bit of a historical review of the exchange's 20 years of existence; Allan Robinson, president of the Allied Real Estate Interests of New York, who, among other things, discussed the problem of city life; A. Platt Andrews, formerly member of the national monetary commission and now director of the United States mint, who talked on the need of a better financial system for the country; and Gen. Francis Peabody, Jr., who described some of the public benefits due to Boston's real estate exchange.

DATES FOR CIVIL SERVICE TESTS

WASHINGTON — The United States civil service commission announces examinations to be held throughout the country for the following positions:

On April 13-14—Expert assistant, department of agriculture at salaries ranging from \$840 to \$2000 per annum.

On April 20-21—Commandant of cadets at the Indian school at Carlisle, Pa., salary \$1200 per annum.

On May 4—Laboratory aid and engineer in the forest products laboratory, Madison, Wis., \$900 per annum each.

Also a teacher of agriculture (male) in Indian service at Carlisle, Pa., \$800 per annum.

FIND ARTESIAN WATER.

PERTH, Western Australia.—The discovery of artesian water on the southern plateau of western Australia, is reported. This discovery will, it is estimated, add to the commonwealth a new pastoral province of at least 20,000,000 acres.

ROOSEVELT WEDDING DATE.

BAY STATE REALTY MEN PREPARE FOR TRIP TO NEW YORK

Arrangements for the New York trip of the Massachusetts Real Estate Exchange for April 15-17 are rapidly nearing completion. A great deal of enthusiasm has been aroused with regard to this important event and a large number of prominent men have already made reservations for accompanying the party. Among these are state and city officials, bankers, real estate brokers and owners, contractors and professional men. Following is a partial list of those intending to participate in this trip:

Ex-Gov. J. Q. A. Brackett, Bank Commissioner Arthur B. Chapin, Mayor John F. Fitzgerald; Maj. John N. Dunn, street commissioner; W. T. A. Fitzgerald, register of deeds; Herbert S. Frost, director of the Exchange Trust Company; Charles M. Conant, real estate operator; John J. Martin, president of the Exchange Trust Company and Massachusetts Real Estate Exchange. Nearly 40 other members of the exchange have signified their intention of taking the trip.

RECIPROCITY PACT ACTION STARTED

WASHINGTON — Immediate action looking toward negotiations for a reciprocity treaty with Canada will probably follow a conference which President Taft arranged today with the leaders in the ways and means committee of the House.

NEW AEROPLANE RECORD TODAY.

MOURMELON, France.—A new world's record for a two-passenger flight in an aeroplane was established here today by Daniel Kinet, who, with another passenger, sailed his Farman biplane 102 miles in 2 hours and 20 minutes.

School Wear

Fine Imported Gingham in pretty plaids, stripes and checks; also the best grades of Domestic Gingham, sizes 5 to 15 years—

2.50 to 10.00

As a Specialty Store for Children we offer the most suitable styles and largest variety for selection.

Byron E. Bailey Co

31-33 WINTER STREET
Special Dept. for Misses and Small Women.

Stocks Sell Off During Afternoon, Closing Near Bottom

THE STOCK MARKET AGAIN DISPLAYS A SAGGING TENDENCY

Trading Continues Dull and Price Movements of Leading Securities Are Within a Rather Low Range.

BOSTON IS QUIET

The remarkable dullness in the New York stock market prevailing for some time past is the subject of much comment among financiers. Yesterday the total sales amounted to about 280,000 shares. Transactions have been larger than this in one hour of an ordinarily busy market in times past. Today's business showed little improvement at the outset. Stocks were heavy and the volume of business quite small.

The government copper report and the monthly report of the Copper Producers' Association were discussed in advance of their appearance, and as neither was expected to help the market to any extent securities were allowed to sag. During the forenoon some of the leading issues had dropped a point or more, while others sagged off fractionally.

The general expectation among traders was that the Copper Producers' statement would show a substantial increase in the copper surplus, as it was not thought that the output of the refineries was reduced sufficiently to offset the fall in the surplus here should be considered in connection with those abroad, however, and during March the stocks on hand in London and Paris declined 4,514,800 pounds.

The condition of the copper metal market has been unsatisfactory for some time past, and as production is going forward on an enormous scale consumers have not been anxious to buy in large stocks in apprehension of higher prices. There is little talk of a merger of the big companies. Many feel that it is no longer practicable and that consideration of such a plan should be deferred at least until after the supreme court decisions in the American Tobacco and the Standard Oil cases have been rendered.

Amalgamated Copper opened off 1/2 at 75 1/2 and sagged off nearly a point further before partially recovering. Utah Copper opened unchanged at 47 1/2 and dropped the fraction. American Smelting opened off 1/4 at 82 1/2 and declined a point.

Consolidated Gas opened off 1/4 at 14 1/2 and dropped about a point during the early sales. Brooklyn Rapid Transit opened at 77 1/2, a loss of 3/4 from last night's closing, and declined nearly a point further.

National Railroad of Mexico first preferred opened off 1/4 at 61 1/2 and after declining to 61 1/4 advanced 2 points. St. Paul was active. It opened off 1/4 at 142 and sold under 141 before recovering.

The local market was inclined to be weak in sympathy with New York. Lake Copper opened off 1/4 at 56 and declined a point further. Utah Consolidated opened off 1/4 at 22 1/2, but soon lost the fraction. Superior was off a point at 40. North Butte at 34 1/2 was off 1/2.

Both markets became very weak in the afternoon. Lake Copper was the feature of the local market. It broke leading New York stocks were from 1 to 2 points or more lower than opening figures.

CLEARING HOUSE COMPARISONS.

Money between the banks quoted at 4 per cent. New York funds sold at 5 cents discount per \$1000 cash.

Exchanges and balances for today compare with the total for corresponding period in 1909 as follows:

	1910.	1909.
Exchanges.....	\$26,570,388	\$30,166,480
Balances.....	1,363,707	2,441,304

The United States sub-treasury shows a credit balance at the clearing house of \$12,447.

NEW CHICAGO TRUST COMPANY.

CHICAGO. The Commercial Trust Company has been formed with \$1,000,000 capital. The Commercial National Bank interests are behind it.

BIG INCREASE IN COPPER SURPLUS

Stocks on Hand Are Larger by Over Sixteen Million Pounds as Shown by Report of Producers Association.

NEW YORK—The Copper Producers Association report just issued for the month of March shows an increase of 16,638,882 pounds in the surplus. The report shows:

Production, 120,067,467 pounds; domestic deliveries, 62,844,818; deliveries for export, 40,585,767; total deliveries, 103,430,585; stocks on hand April 1, 123,824,874.

March, 1910, production and deliveries compared with March, 1909, as follows:

	1910.	1909.
Production.....	120,067,467	103,430,585
Domestic deliveries.....	62,844,818	62,844,818
Deliveries for export.....	40,585,767	40,585,767
Total deliveries.....	103,430,585	103,430,585
Stocks on hand.....	123,824,874	107,186,000

Exports and domestic deliveries compared with March, 1909, as follows:

	1910.	1909.
Exports.....	40,585,767	40,585,767
Domestic deliveries.....	62,844,818	62,844,818
Total deliveries.....	103,430,585	103,430,585

ILLINOIS BRICK BUYS NEW PLANT

CHICAGO. The Illinois Brick Company has closed contracts for the purchase of the brick plant of the Wisconsin Lime & Cement Company at Dalton, Ill., and for the Harms plant on the north side in Chicago. The price paid for the former is understood to have been \$175,000 in the capital stock of the Illinois company. The consideration in the deal for the Harms concern is not named.

Acquisition of these additional plants is in line with the company's policy to enlarge its capacity. Both of the new plants are important, and will add considerably to the Illinois company's production. Under the terms of the sale of the Wisconsin company's plant that the manufacturer of brick.

The Illinois company probably will acquire more plants in the near future. The outside concerns have all signed the 15-year agreement under the Penfield patent method of manufacture, so that the no longer lead to demoralization of prices.

THE GRAIN MARKET.

C. F. & G. W. Eddy, Inc., of the Boston Chamber of Commerce, received the following from their Chicago correspondent:

Wheat—Market was moderately active today morning with prices about steady. There did not seem to be much waiting for either way and every one was conditions. The estimates on the report varied from 86 to 70. The general estimate was 81 to 82. Last December the condition was 85.8 and last April 82.2. The government report was 80.8. Market sold off upon appearance of the report.

Corn—The situation in the corn market was practically unchanged this morning. Trade was quiet with prices about steady. There was not a great deal of outside interest shown. Weather reports were favorable for planting. Early of very quiet demand.

Oats—Market was a little firmer at opening with some covering by shorts, but later eased off. Development of the new crop is unusually forward.

IOWA PROGRESSIVE IN FIELD.

DES MOINES, Ia.—The political surprise of the year in Iowa came today, when Warren Carr of Coon Rapids, Ia., term of Senator Cummins as Governor, was announced himself as "progressive" candidate for the Republican nomination for Governor, opposing Gov. B. F. Carroll.

REAL ESTATE NEWS

Another extremely valuable business property to change hands is that numbered 54 to 60 North Market street, running through to 6 to 13 North street, which has been transferred to Rufus A. Thayer by Fred W. McCarter. The parcel consists of a large four-story brick building and 3824 square feet of land, the whole rated by the assessors as worth \$220,000. Of this amount the land's share is \$183,500.

Dr. Walter G. Chase has purchased, through Whitcomb & Co., Devonshire building, the property at 1106 Boylston street, Back Bay. It comprises a three-story octagon-front brick house, with 2205 square feet of land and was owned by Francis E. Galloupe. The location is between Massachusetts avenue and Hemenway street. Of a total assessment of \$17,000, \$12,000 is on the land.

Another conveyance in the Back Bay involves the estate at 17 Hereford street, near Marlboro street, which Fellows Davis has sold to Marie A. D. Johnson. There is a total rating of \$15,000, \$6,400 being on the 1350 square feet of land. The house is a four-story octagon front brick one.

Isaac Heller has disposed of the property at 13 Allston street, Beacon hill, taxed for \$11,000, to Jennette M. Hale. It is near the corner of Bulfinch street, there being a 3½-story brick house, occupying 100 square feet of land, the latter taxed for \$1000.

SOUTH END—ROXBURY.

R. F. Andrews & Company have sold at auction to Grace Bradbury, the parcel numbered 26 to 28 Oxford street, south end, taxed for \$18,000. It comprises two brick houses occupying 2083 square feet of land, the latter rated at \$14,000. It was owned by the Grace estate and the price paid was \$12,600.

The same brokers have sold the valuable stable property in Warren street, Roxbury, known as the George S. Tarbell Company estate, to Charles H. Fox et al. This is one of the most important sales of business property that has been effected in Roxbury in a long time, having a total rating of \$48,000. There are 16,402 square feet of land, assessed for \$12,800.

ATLANTIC-BY-SEA.

The office of Charles M. Conant, 640-642 Old South building, reports final papers passed in the sale of 3960 feet of land in Carle road, Atlantic-by-the-Sea, to Edward E. Palmer of Norfolk Downs. This lot is only a few rods from the Metropolitan boulevard and the Squantum and Wollaston Yacht clubs.

SALES AT AUCTION.

Atwood & Patten, Niles building, reported several lots sold at auction at Beverly and Danvers. The property is known as the Southwick farm, the first piece consisting of an eight-room house having a bath, open plumbing and modern conveniences, with a large and small barn, henhouse, extensive yards and 7½ acres of land. It was sold to Parker S. Davis for \$4000. Eighteen house lots adjoining also have been sold.

ROSLINDALE SALE.

Henry W. Savage reports the sale for the heirs of J. B. Strongman of the property at 58 Hewlett street, Roslindale, consisting of a corner lot containing 6050 square feet and a 2½-story frame dwelling house. The total assessed value is \$3800, of which \$800 is on the land. The purchaser was Kate B. Sawalsky of

Roslindale, who will improve the property and occupy.

BUILDING NOTICES.

Notices of intention to construct, alter or repair buildings were posted in the office of the building commissioner of the city of Boston today as printed below. Location, owner, architect and nature of work are named in the order here given: Placerville rd., 8, rear; John F. Suckling; Alhambra st., 392; Thomas Osborne; wood dwelling. Talbot ave., 280-30, cor. Lithgow st.; Joseph Lewenberg; A. J. Carpenter; wood stores. Talbot ave., 385-387, and Lithgow st.; Joseph Lewenberg; A. J. Carpenter; wood stores. Meridian st., 60-68; Caselstein Bros.; alter store and dwelling. Main st., 646; Willard Rice estate; alter store. Berkeley st., 69-71; Gay estate; alter store and tenement. Berkeley st., 65-67; Elizabeth McCormick; alter store and tenement. Hemenway st., 143-149; Philip Broomfield; alter tenement. Dorchester ave., 319; Alger estate; alter wooden shed. Kenilworth st., 21; O. M. Dahl; alter dwelling. Merrill st., 1; Israel Bernas; alter dwelling. Byrner st., 7; Joseph A. Libert; alter dwelling.

CLOSE PRINCETON TRUSTEE CONTEST

PRINCETON, N. J.—Unusual interest is shown in the coming election of an alumni trustee of Princeton University. Adrian H. Joline '70, of New York, received 354 nominations, and John W. Barr, Jr., '85, of Louisville, Ky., received 381, each more than twice as many as any other candidate whose election was contested has ever received.

The fight for Mr. Barr was started in the Middle West and South, but his friends have carried the campaign as far as Philadelphia and will invade New York, Mr. Joline's stronghold, before the election in June.

INDIANA MAY YET GREET PRESIDENT

WASHINGTON—To callers at the White House Thursday President Taft declared politics had nothing whatever to do with his decision not to visit Indianapolis May 5. He said he had read Senator Beveridge's speech some time ago; in fact, before he accepted the invitation to visit Indianapolis in the first place, although it was not submitted to him by the Indiana senator nor with any idea of executive approval or disapproval. The President has made no comment upon it. If he can arrange to postpone engagements he had made in Washington May 6, 7 and 8, it is more than likely that he will visit Indianapolis.

NEW TRACKS FOR NORTH DAKOTA. ST. PAUL—Announcement has been made of the construction of 310 miles of new track by the Northern Pacific in the central portion of North Dakota this season. One southern branch to Mott will compete actively for the traffic opened by the St. Paul extension in the south western part of North Dakota.

BILL FOR WEYMOUTH RIVER. WASHINGTON—Representative O'Connell Thursday introduced a bill appropriating \$150,000 for improving the Weymouth River from a point just above the shops of the Fore River Shipbuilding Company to Quincy bay. There is a similar measure in the Senate.

RATES—One insertion, 12 cent a line, three or more insertions, 10 cents a line. Telephone your advertisement to 4330 Back Bay, or, if preferred, a representative will call on you to discuss advertising. Advertisers may have answers sent care of New York Office, Suites 2092-2093, Metro politan Bldg., 1 Madison Ave., or Chicago Office, 510 Orchestra Bldg., 166 Michigan Ave.

REAL ESTATE

CANADA WHEAT LANDS

Average yield in Saskatchewan 1909: Wheat, 25.10 bushels per acre. Oats, 47.10 bushels per acre. Thousands of acres of carefully selected wheat lands for sale at low prices and easy terms. Illustrated booklet, map, etc., free to those interested. Write today, stating your requirements, be they large or small.

JOHN L. WATSON LAND CO., WINNIPEG, CANADA.

EASTERN TOWNSHIPS BANK, Winnipeg. FOR SALE—Denver, Colo., brick cottage, 7 rooms, all modern improvements, 1½ lots, \$2750; \$1500 mortgage at 5 per cent for 3 years, balance cash. Address THE HYMERS-LOOMIS INV. CO., 815 17th st., Denver, Colo. \$5000 CASH, balance mortgage \$250, buys 8-room house, barn, ½ acre land, Berkshire Hills, Huntington, Mass. Grand trout fishing. C. H. T., 26 Ward st., West Haven, Conn.

REAL ESTATE—NEW YORK. NEW YORK CITY, Borough of Brooklyn—For sale, on Park Slope, a 3-story house, lot 55x105, house 23x55; hardwood floors, steam heat, electric light. Apply on premises, 109 Lincoln place.

FINANCIAL

\$5000.00 INVESTED in the stock of the National Performing Machine Company, 22nd and Campbell sts., Kansas City, Mo., will secure a good position as sales manager. Established business with splendid prospects. Address as above.

PHOTOGRAPH STUDIO—Would like reliable party to take half interest in paying ground-floor studio, H. W. RICH, Rutherford, Me.

APARTMENTS TO LET

WINTHROP—THORNTON STATION—To rent, furnished lower apartment, 5 rooms and bath, hardwood floors, open fireplace, large piazza overlooking Boston harbor, garage if desired; Bristol, N. H. References required. Address K 565, Monitor Office.

APARTMENTS TO LET—NEW YORK. TO RENT—Furnished apartment, 5 rooms, piano, bath, park street between Central and Riverside parks, May 1-Sept. 1; near subway, elevated, bus and river, ideal summer location; references required; \$50. Address W 6, 2093 Metropolitan bldg., New York city.

FOR RENT—CHICAGO

FOR SUMMER MONTHS attractive, 8-room furnished house in best part of Chicago; reasonable terms; near Illinois Central Express, R. G. COLE, 1363 Hyde Park bldg., New York.

FOR RENT

FURNISHED 5-room flat from May 1; Northwestern "L" express; first apartment. Tel. Edgewater 3934. 4560 Kenmore ave., Chicago.

ROOM AND BOARD WANTED—N. Y.

YOUNG MAN, refined, neat, desires home in private family. Address B 7, 2093 Metropolitan bldg., New York.

BOARD & ROOMS WANTED—CHICAGO

WANTED—Large r. and b.; priv. fam.; so. exposure; near Northwestern El., between Artye and Edgewater stas. G. D. L. Monitor Office, Orchestra bldg., Chicago.

Maundy Thursday in Europe

THE picturesque ceremony of the distribution of the King's Maundy gifts took place on the Thursday before Good Friday, known as Maundy Thursday, in Westminster Abbey. There appears to be some question as to the origin of the word. Sometimes it is derived from the Latin expression "dies mandati," and is supposed to refer to the command to the apostles contained in the thirteenth chapter of John. After he had washed his disciples' feet, he said, "A new commandment give I unto you, that ye love one another." Another derivation of the word is from the old English "Maund," a basket, and refers to the fact of the distribution of food to the poor in baskets at the time of the great religious feasts, by the monasteries.

The present ceremony is all that has come down to us today of the literal washing of the feet of the poor by the King, which was carried out for the last time in England by James II. The remainder of the procession to the Abbey and the distribution of the King's gifts, still

remains and has been carried out without intermission since the time of Edward III.

The number of poor people to whom the Maundy money is paid tallies with the age of the King, as does the amount received by each, the total being one penny for each year of his life. This money is especially minted for the occasion, and is distributed entirely in silver pennies, two-pennies, three-pennies and four-pennies. In addition to this, the beneficiaries receive very much more substantial gifts from the King's almoner.

The procession itself is the most picturesque part of the ceremony. The

great alms' dish, heaped up with red and white purses with streamers hanging over the side, is borne on the head of one of the yeomen of the guard, while posies, representing the herbs formerly used at the ceremony of the feet washing, are carried by the clergy and the members of the royal almonry.

The ceremony of the washing of the feet was continued in Vienna by the present Emperor down to the year 1888 and a reflex of it is still continued in Madrid, where the King still touches the feet of 12 men and 12 women with a sponge and a towel and afterward serves them at table.

Writers of the New Testament

COMMENTING on Professor Zahn's study of the New Testament authorship, the Spectator says: In what tongue was the gospel originally preached? The opinion, once maintained with some confidence, that Jesus habitually spoke in Greek is now commonly discredited. Professor Zahn may be said finally to dispose of it. He gives at the same time a full account of Aramaic as what may be called the lingua franca of the near east; he disposes, for instance, of the idea that Hebrew was spoken in Judea and Aramaic in Galilee. But he is careful to show that Greek was in common use. Jesus and his disciples could speak it on occasion. Thus certain "Greeks" had an interview with two apostles, possibly with the Master. From this we pass to the use of this language by the New Testament writers. If there is anywhere a difficulty, it would be as regards the epistle of James. And here it is of the very slightest. The head of the Jerusalem church, necessarily bilingual, during his many years of office could hardly have failed to become familiar with the language. Of St. Paul's proficiency in it Professor Zahn has formed a high estimate. St. Paul employs it with "versatility and effect." He does not use it as a language "acquired with effort late in life." He is evidently familiar with rhythmical effect. It is impossible to read such passages as I Cor. ix. 24-27,

and the famous encomium of charity, without feeling this. Professor Zahn has something to say about the much-disputed quotation from Menander (I Cor. xv. 33). Copyists often lost the poetical form; it is possible, however, that the form was deliberately altered as hinting of incongruous associations.

In dealing with the several books a chronological order has been followed. The epistle of James comes first, and the date assigned is of the very earliest. It was addressed, our author holds, to the Christian church in the year 50, while its membership was still almost entirely Jewish. He sees "clear traces of its influence upon the Christian writers of the period immediately following the year 50." It is certainly easier to deal with the well-known opposition between James ii. 14-26 and Romans iv. 1ff., if James is taken as the earlier of the two writers. Professor Zahn's treatment of the subject is most interesting and instructive.

On the profoundly important point of the authorship of the fourth Gospel Professor Zahn holds a most decided opinion that it is apostolic. The belated question of "how much freedom John allowed himself in the reproduction of the discourse" cannot, he thinks, be definitely answered. But he holds that one who writes from his own knowledge would feel more at liberty to interpret than one who was writing from the accounts of others.

Music in Japan

An amusing story is told by an eminent music critic of an experience he had while in Japan. They have a very peculiar idea of an orchestra in the flowery kingdom, or at least it seems a peculiar idea to us. When a number of men gather together to play concerted music, there is nothing concerted about it. They perform on all sorts and conditions of instruments which are always madly out of tune and at variance with each other. The music critic tried to explain the difference to a Japanese musician between our orchestras and their own. The Japanese could understand everything very well until it came to the duties of a conductor; these he could not understand at all. When he was told that the leader carried a baton, however, he immediately became enlightened. "O, I see!" he said. "He kind of school man. He whip men with stick, they no play good!"

The two savings bank departments with insurance features for working-men, established in Brockton and Whitman, Mass., in accordance with the law passed in that state a year ago, have paid a dividend of 81.3 per cent on the first year's premiums or investments.—Exchange.

"What if the realization of our ideals does tarry? So the ideal of David tarried. God credited him with his ideal and that ideal in God's own time came to its realization. . . .

"Often it takes a long time for an ideal to come to its perfect realization, but at last the ideal is brought to its glory and then every hewer of wood and drawer of water, every prophet, priest and king, every student and every bond slave has a part in that blessed consummation."—From Dr. McClure's Baccalaureate at Lake Forest University.

CHILDREN'S DEPARTMENT

When Bees Swarm

One incident of bee-keeping is the annual swarming. Some fine morning in May or June there is a great hubbub in the garden, and the air is literally alive with thousands of flying bees, the hum of which can be heard a great distance. After a while the bees gradually settle on a bush or a branch, and hang there for several hours. This process is called "swarming" and the bees thus hanging are called a "swarm." These bees are not, as is popularly supposed, the young bees, but are the old bees and old queen, who have left the old home, as this has become too small to accommodate its rapidly increasing population. The bees are wise folk; and knowing that they will need food for their journey, and honey with which to build combs in their new home, they have, therefore, gorged themselves with honey before leaving the hive, and herein lies the secret why swarming bees are so docile and can be so easily handled.—Country Life in America.

ANSWER TO YESTERDAY'S PICTURE PUZZLE.

Cycling.

The Young State

Far off a young state rises, full of might;
I paint its brave escutcheon. Near at hand
See the log cabin in the rough clearing stand;
A woman, by its door, with steadfast sight
Trustful, looks westward, where, up-lifted, bright,
Some city's apparition, . . . grand,
In dazzling quiet fronts the lonely land.
With vast and marvelous structures wrought of light,
Motionless on the burning clouds afar;
The haunting vision of a time to be,
After the heroic age is ended here,
Built on the boundless, still horizon bar
By the low sun, his gorgeous prophecy,
Lighting the doorway of the pioneer.
—John Piatt.

Pride is one thing, assumption is another; the latter must always get the cold shoulder, for whoever shows it is no gentleman; men never affect to be what they are, but what they are not. The only man who really is what he appears to be is a gentleman.—Judge Halliburton.

"What if the realization of our ideals does tarry? So the ideal of David tarried. God credited him with his ideal and that ideal in God's own time came to its realization. . . .

"Often it takes a long time for an ideal to come to its perfect realization, but at last the ideal is brought to its glory and then every hewer of wood and drawer of water, every prophet, priest and king, every student and every bond slave has a part in that blessed consummation."—From Dr. McClure's Baccalaureate at Lake Forest University.

PICTURE PUZZLE

What girl's name?

She Wanted to Help

One day last summer little Marion, aged three, was placed on a chair in the kitchen to watch her grandma shell peas for dinner. After watching with much interest for a few minutes she turned to the maid, Julia, and said, "Dollie, get me down, I want to help gonna unbutton the peas."—Dellinistors.

Art of the Fifteenth Century

Among the recent accessions at the Metropolitan Museum of Art the Spanish altar piece of the fifteenth century, the generous gift of William M. Laffan, has aroused much interest. The altar piece was shown at the museum during the summer of 1907, and at that time Roger Fry ascribed the painting tentatively to the Catalan artist, Jaime Vergos II., who was active in the latter part of the fifteenth century. A comparison of the altar piece, which is now on view in the room of recent accessions with the reproductions of the paintings of Jaime Vergos II. in the museum of Barcelona, shows striking similarity of form and manner of drawing and bears out the plausibility of the attribution.

The altar piece is made up of six compartments surrounded by gilded Gothic tracery. The main panels of these compartments contain scenes from the Passion, and below them in medallions are large heads of saints. The halos and gold ornaments on the costumes and armor are built out in relief with gesso, and an abundance of gold is used throughout. This, with the strong reds and blues which predominate in the painted parts, gives to the work a particularly rich and brilliant effect. The painter's chief intention, however, seems to have been dramatic rather than decorative. In subjects like the betrayal and the crowning with thorns, the turbulence of the scenes is admirably expressed. In striking contrast with these is the repose and stillness of the first panel, the agony in the garden. The group of sleeping apostles in the foreground of this picture has real grandeur of conception.—New York Evening Sun.

Popular Names

Nine persons out of 10, if asked which of the names for women had found most general adoption, would answer "Mary." This would have been correct in the past. It is not the case today, if the Smith College registration affords a test.

Helen is the name of one Smith undergraduate in every 16, an interesting revival of the historic ratio.

The complete tabulations show the comparative use of the different spellings. "Lillian" occurs nine times to two "Lilians"—in spite of the example of Tennyson. Elizabeth is spelled 47 times with the "z" and twice with an "a." Katharine is spelled "ar" 25 times and "er" 12 times, while the old form beginning with "C" is found nine times more.

Savoy and Nice

Fifty years ago, on the 24th of March, 1860, Cavour and Benedetti signed the treaty of Turin, by which Savoy and Nice were separated from Italy and became part of France. It was the most popular annexation, if annexation is a possible word in the circumstances, recorded in history. The question as to whether the two principalities were to remain Italian or French was decided by plebiscite. In Savoy, 130,523 votes were cast for France and 235 only for Italy. In Nice, the votes for France were 25,000, while those for Italy amounted to 100. The fact is that the two principalities were French naturally, not only geographically and linguistically, but even in their customs.

Quarrying for Concrete

An old granite quarry in Brockton is being changed over into a cement pit. That is not quite such a startling news as Paul Revere spread about Middlesex many years ago, but the prospect is that it means a good deal to New England. There are thousands of forsaken granite quarries about this commonwealth and others to the north. Some of them are so old that they have been forgotten by all but the hunters who stumble into them while roaming the forests. Granite is still used extensively and there is yet to come a great deal of business with the well-spilt blocks, but there is new history to be made, and that will have more cement. In it. Therefore, that old granite quarry in Brockton has a place in the news columns for a new reason. A Boston company is to place in it a large stonecrusher and make that crumbling granite into meal, very fine dust of rock, and that is to be shaped into cement bricks, urns, bowls and various forms that the builders use in fitting houses for habitation. That is, a great mass of granite has been found useless for cutting out shapes in the native rocks and therefore it is to be ground up and made into rock of shapes such as are wanted now, and as cement in its more modern application, makes possible.

FOREST COMPANIONS

(Photo by H. A. French, Portland, Ore.)
BIG TREE IN OREGON.

Here is one of the neighbors of the big trees of California. The hunter standing beside it looks fairly like a pigmy and gazes with due respect at his new made acquaintance. Or perhaps the two are old friends and the man is merely paying his usual tribute to the majesty of the forest king.

His Mouth Was Unchanged

When dessert spoons were invented, Hamilton palace, the seat of Sir Charles Murray's uncle, was the first household north of the Tweed to adopt them. A small laird, invited to dine with the Duke of Hamilton, was disgusted to find a dessert spoon handed to him with the sweets. "What do you get me this for?" he exclaimed to the footman. "Do you think my mouth has got any smaller than since I lapped up ma soup?"—London Chronicle.

Brightness at Home

Don't be afraid of a little fun at home. Don't shut your house lest the sun fade your carpets, and your hearts lest a hearty laugh should shake down some of the dusty old cobwebs there. Young people must have fun and relaxation somewhere. . . . The best safeguard they can take with them into the world is the influence of a bright little domestic sanctum.—New Haven Journal-Courier.

UNFOLDMENT

THE flower-time of the year is near, and soon we shall see unfolding on every side a wealth of form and color. To winter-stricken hearts Christian Science says, "Nature voices natural, spiritual law and divine Love, but human belief misinterprets nature" (Science and Health, by Mrs. Eddy, p. 240). The unfolding of leaf and flower bud has a gracious symbolism for all

who are striving to gain good. The material senses, from their very nature demand time for the unfolding of tight-curling petals, and, casting the shadow of limitation upon thought, suggest that the bud holds but the promise of a flower. A promise which may be blighted from many causes, and at best has slight chance of fulfillment. But all who have ever known a rose, behold, mentally, in every bud the full blown flower. Time is not required for this perception, it is only necessary to know roses. To an unlimited mind, promise and fulfillment would be one. Bud and blossom would mingle and combine in a fascinating order and progression unguessed by the material senses. Christian Science teaches us that there is such a Mind, and raises thought to the sacred consciousness that this Mind is God, for He alone is infinite.

In every heart is the budding desire to be good, hidden deep sometimes beneath the snow and ice of selfishness and sin, yet ever ready to blossom in the springtime of repentance and reform. Often, when the ice has melted, old habits cling, seeming to hide the waking desire for betterment. But they who wisely love, remembering their own springtime, push aside dead leaves and mosses and reveal the perfumed prayer. The beginning of every right endeavor holds in itself completion and fulfillment. As mortals we need faith and courage for that watching and waiting which we call labor; and faith and courage are gleams of that knowledge to whom bud and blossom are one. Discouragement is a shadow cast by that same limited sense of good which can see only a possible flower in the bursting bud.

Elijah saw in the tiny cloud the answer to his prayer; and sent to the King

to hasten, lest the rain stop him on his way. So the students of Christian Science recognize, in each smallest proof of its teachings, the glorious flowering of every promise of God. The healing of the simplest ailment for an individual draws us all nearer, individually and collectively, to that land of perfect wholeness wherein "the inhabitant shall not say, I am sick" (Isaiah xxxiii. 24). The destruction of the most insignificant fault, or the revivifying of a pallid, so-called virtue brings the whole suffering world forward to that glad realm, where joy is supreme, because "the accuser of our brethren is cast down." (Rev. xii. 10.)

As we learn to realize that the whole is contained in the beginning, and that unfoldment is the law of living, we gain courage to undertake. Large projects appear less formidable as we remember that the impetus of a right beginning carries us on to completion. We have only to look up again that we may see our way unfolding, ever unfolding, according to the unsuspended law of good. Life, seen truly, is unbroken and immediate. The sense of break and futurity called death, and life after death, is due to that sense which suggests blight for the bud, and failure for endeavor. Consequently every suggestion of this false sense silenced lessens both the fear of death and the liability to die. Thus it behooves us, in the light of the clear logic of Christian Science on this subject, to gain each day some further victory over limitation or materiality as it is more commonly called. And this is true, although, to the majority of mankind, the idea of continuous life must seem, as yet, a Utopian dream.

Flower Vases

In selecting a vase for flowers, one of clear crystal, even though it be pressed glass, is a much better choice than those which show mixed color decoration on porcelain and are much more expensive. There are beautiful pottery jars of Japanese design—or make, with dull, soft colors and unglazed surfaces which fit readily into almost any room, and may hold growing plants or cut flowers with equal effect. From the tall glass vase which will hold a few long-stemmed roses and which sells for 50 cents, the selection may extend to those overlaid with gold and silver showing the glass between, or the beautiful iridescent glass for which one may pay almost any sum.—Los Angeles Herald.

I am not bound to win, but I am bound to be true. I am not bound to succeed, but I am bound to live up to what light I have.—Lincoln.

Looking Straight Ahead

A few years ago while standing at my window I saw a little bed of cosmos. It was still quite early and the sun was just peeping over the housetop and touching the little bed of cosmos. As I looked I noticed every little face turned lovingly to the sun. Not one interfered with the others. Some had long stems, some short and some were quite bent and crooked, but that did not interfere with all turning in the one direction. It was an object lesson to me. All turned one way, not one looking to see what the other was doing. It has many times since helped me to mind my own business; to keep my face and thought away from my neighbor lest I should even for an instant turn away from that bright light of ever-present Love which is God and which is ever before us if we keep straight ahead.

Certain Advantages
of New England Farms

A prominent Boston real estate man says that nowhere else can a man get so much land for his money as in the north-eastern states, especially in those of New England. He believes that during the next 10 years this section will have quite a demand for its undeveloped land near steam and electric lines, says the American Cultivator.

The bargains are here; serviceable farm buildings at low prices, with plenty of good farm land free by way of good measure. But, except in remote localities, farms are selling higher than they were 10 years ago when the writer first called attention to the beginning of the rise in value of farm property in the northeast. Farm bargains are already a thing of the past in the West. They will not last many years more in the East.

The purchaser of a farm in a new country buys only the raw land; it means time, money and hardship to make an income-paying, livable home on such land. But when buying an older farm there is more included than the clearing, fencing, breaking in, tree planting, drainage and putting up buildings. He who buys an old farm buys also into good markets, schools, churches, amusements, and, if he choose wisely, he may secure the best class of country neighbors in the world. There is more in a farm than is shown by the color of the soil.

Rise of Modern Liberty

It was in the towns that modern democracy had its rise. Despite all the efforts of the kings and barons to prevent it, the spirit of liberty began to assert itself in the larger towns in the shape of the charters which guaranteed to the people certain commercial and political rights, which, once obtained, were never to be surrendered. Before the middle of the eleventh century there were many of these "chartered" towns which possessed the right of electing their own magistrates, sheriffs, judges and regulating their own taxes. The wretched serfs from the country were welcomed by the townspeople and aided to a larger freedom. These free towns were first known in Spain, from which country they slowly spread over Europe. The burghesses naturally offered protection and freedom to all who would flee to them from the feudal estates, and thus, slowly but surely, the good work went on until the ancient despotisms were destroyed.—New York American.

PUBLISHER

Falmouth and St. Paul Sts.
Boston, Mass.The
Christian Science
Monitor

Published daily, except Sunday, by

The Christian Science
Publishing SocietyFalmouth and St. Paul Streets,
Boston, Mass., U. S. A.

Publishers of "The Christian Science Journal," "Christian Science Sentinel," "Der Herold der Christian Science," and other publications pertaining to Christian Science.

ARCHIBALD McLELLAN, Editor-in-Chief.
ALEXANDER DODDS, Managing Editor.
All communications pertaining to the conduct of this paper and articles for publication must be addressed to the Managing Editor.

Entered as Second Class at the Postoffice at Boston, Mass., U. S. A.

TERMS

Single copies, 2 cents. By carrier in the Greater Boston newspaper district, 12 cents the week.

SUBSCRIPTIONS BY MAIL
PREPAIDIn the United States, Canada and Mexico:
Daily, one year, \$5.00
Daily, six months, 3.00

In all other countries additional postage at the rate of \$3.00 yearly is required.

All checks, money orders, etc., should be made payable to The Christian Science Publishing Society, Boston, Mass., U. S. A.

The Christian Science Monitor will be found on sale at all newsstands in New England, and in Christian Science Reading Rooms throughout the world.

Rates for advertising will be furnished upon application to the business department.

EDITORIAL

Boston, Mass., Friday, April 8, 1910.

The Secretary of the Interior

It is exceedingly regrettable that Secretary Richard A. Ballinger has not seen fit to act with promptness, decisiveness and determination in the matter of the attacks upon his private character. Following sharply the recent appearance in one of the leading periodicals of such an article he announced that he would. Save in a general and a passing way the accusations remain unchallenged. More than this is called for. The allegations are plain. Names, dates and circumstances are given, apparently with the greatest care. If they have any value as testimony in substantiating the claim that Mr. Ballinger is not a proper person to occupy an exalted public position, they must be supported by records that are available. If such records do not exist, or, existing, have been tampered with in any way, it should not be a very difficult matter for the accused official to expose the methods and to defeat the plans of his enemies.

Much more is involved than Secretary Ballinger's personal and political fortune. In November, 1908, William Howard Taft received 7,811,143 votes for the presidency against 6,328,601 cast for William Jennings Bryan. Mr. Taft carried every northern state save Colorado, Nebraska, Nevada, Oklahoma. He won, also, the border states of West Virginia, Missouri and Delaware, and divided Maryland. For the first time since the civil war a Republican campaign made serious inroads upon the solid South and this was attributed in a great measure to the candidate's personal popularity. It was everywhere conceded that Mr. Taft had the confidence of the public of all parties and all classes, more fully, perhaps, than any of his predecessors. The time has come, however, when it seems necessary to say that Mr. Taft and Mr. Ballinger are asking those who estimate at its true worth a mere factional outcry or a mere partisan or prejudiced man-hunt to go too far.

In common with tens of thousands of fair-minded people, this newspaper has been disposed at all times to give reasonable support to the man who, such a short time ago, received the unqualified indorsement of the majority of his fellow countrymen and to those whom he chose in the light of this indorsement as his counselors. To us it seems the gravity of the situation does not lie altogether in the fact that the charges against Mr. Ballinger's integrity have been made by some of the leading newspapers and periodicals, but rather grows out of the fact that the charges stand practically unchallenged and unrefuted.

Does it seem to be asking too much of President Taft, not only with regard to himself and his administration, but with regard to the dignity of the nation, that he make the proper course clear to his secretary of the interior?

THE higher the lower. This is expected to be the new rule in prices on Pullman car berths when the interstate commerce commission gives out its decision. Upper ones are to cost less than those below.

MAYOR GAYNOR of New York is compelling attention. He is doing something every day that is unusual in his position. He is exercising common sense and honesty. One of the latest orders of this revolutionary chief executive is that hereafter photographs of prisoners of the rogues' gallery shall not be taken until after conviction. Simple justice would seem to demand this; the practise has been to the contrary. Mayor Gaynor found that nearly a hundred appraisers and clerks in the water department were drawing pay without rendering service, and ordered their discharge; this was merely his duty to the city, but other officials had permitted the municipality to be despoiled of thousands annually.

Mayor Gaynor discovered that Chinese were being compelled to pay for police protection; he stopped the abuse. When Mayor Gaynor learned that it was easy for policemen in plain clothes to levy tribute on saloon-keepers, he ordered that they wear uniform in making visits; whatever is paid by the liquor-sellers will go to the city. Mayor Gaynor has been waking up the tax board to its responsibilities. In considering a lease he discovered that the property was assessed at less than one third of its value. "No wonder," he said, "that we have no money to build subways."

These are only a few of the things that the mayor of New York has been doing. He has eliminated political pull and has inaugurated a system of economy and fair dealing in the administration of the city's affairs. Where justice prevails, peace and prosperity will be founded and flourish. Mayor Gaynor has won the respect and admiration of upright citizens generally. No citizen need fear anything less than a "square deal" under his rule. And yet the mayor is only pursuing a policy based on common sense and honesty.

ELGIN, it appears, not only sets the time for many of us, but also sets the price of creamery butter for the whole country.

The South and Meat Production

It is claimed by a representative southern newspaper that the southern people could, if they would, raise their own meat supply, and do it more cheaply than it can be done for them in the northern states. In partial support of these claims, it is asserted that live stock in the Gulf states can live out of doors all the year round, and will always be able to find an abundance of food. The native grasses and herbage for grazing animals, it is asserted, and the vast profusion of wild nuts and edible roots for hogs, furnish subsistence for stock in an abundance unknown in the North. These statements are incontrovertible, and yet, excluding Texas, the South is a small contributor, comparatively, to the nation's meat food supply. In this particular, the South has not kept pace with its own general advancement nor with the increased production of the country at large. It has not, in fact, regained the position it occupied previous to the rebellion, when it had 50 per cent of all the beef cattle of the country.

The theory advanced by the Manufacturers Record for this

state of things is that the South after the civil war was practically without live stock, and without the means whereby it could replace the animals lost during the war period. As the most available means of obtaining a livelihood, the southern people turned to cotton raising. With this they soon glutted the market as it then existed. When the diversified crop movement took hold of them they had fallen into the custom of depending upon the North and West for their meat supplies. The long and short of it is, therefore, that nothing save neglect of a great industry by the South now stands between the nation at large and a more plentiful supply of meat, with much lower prices.

There is absolutely no question as to the South's ability to increase the meat supply of the country immensely. It still has extensive ranges of fine grazing land; it has plenty of cheap fattening feed, a favorable climate, and all the other advantages necessary to the upbuilding of a great traffic in live stock. All that is lacking, according to the southern newspapers, is the disposition and the enterprise which the development of a great industry calls for, and it begins to look as if these would not be lacking long.

A New Plan to Help Liberia

THE indisposition of this country to become involved in the affairs of Liberia has grown rather than diminished in recent years. The secretary of state appeared on Wednesday before the committee on foreign relations of the Senate and found that body obdurate on this subject. Very quickly it was made clear to Mr. Knox that the Senate would approve no treaty with Liberia, though it might be one to which Great Britain, France and Germany were parties. The principal reason for this aloofness is to be found in the policy adopted on the advice of George Washington, but not consistently adhered to, that we avoid all foreign complications. It did not help matters when Mr. Knox referred to our attitude toward San Domingo at present, which is in the nature of a guardianship similar to that exercised over Egypt by Great Britain. It was pointed out to the secretary that in the case of San Domingo we have the Monroe doctrine to fall back upon, whereas the theory of that doctrine excludes us from interference in Liberian affairs.

This was not new to Mr. Knox. What he wanted to know was how far we should be willing to go in the matter of assisting to straighten out Liberia's rather tangled financial affairs, and he found out that as a government we preferred to steer clear of the entire matter. On the other hand, our disposition toward Liberia is most friendly, and the secretary of state was given to understand that if his department should use its good offices to promote negotiation of a treaty favorable to the African republic among the other powers, this action would meet with the approval of the Senate. With this encouragement, Secretary Knox will strive to enlist the aid of British, French and German bankers in Liberia's behalf. His purpose is to get them to refund the Liberian debt, accepting the assignment of a portion of the Liberian customs receipts in repayment, a supervisor of customs to be appointed by the United States as a disinterested party.

The latest available statistics relating to Liberia place the revenue and expenditures of the republic at \$357,433 and \$340,036 respectively. The foreign debt is close to \$200,000; the internal debt about \$300,000. In 1906 the imports and exports were valued respectively at \$786,526 and \$777,507. Five years ago the Liberian Development Company, a British corporation, advanced \$500,000 to the Liberian government for establishing a bank, constructing roads, and raising a force of native constabulary. The British influence has become predominant in the republic, while France and Germany have important interests there. Vigorous and careful administration and the promotion and encouragement of home industries appear to be the essentials to Liberian prosperity.

OPERATORS will undoubtedly mark this latest Western Union message "rush." The company announces that it will increase the wages of employees before it cuts any more melons for stockholders. It is a bit surprising as well as disappointing to find here and there, among well-informed people and in well-informed newspapers, symptoms of suppressed irritation, if not actual indignation, over the claim of the Wright brothers to certain valuable patent or property rights in the field of aeronautics. Irritation and indignation are both engendered by the fact that the Wright brothers are disinclined to permit the fruits of their labor to be gathered freely by a lot of other people.

Now, the Wrights have precisely the same rights in this matter, and the same right to assert their rights, as any other inventors have had—the same rights, for instance, as Howe, or Hoe or Edison; the same rights as Pullman, or Westinghouse, or Bell; no more, no less. If the Wrights have invented a flying machine superior in many respects to all other flying machines, different in design and construction, because original, from any other flying machine in existence at the time, and other aeronauts and flying machine manufacturers are now desirous of adopting the Wright inventions, what could be fairer or more legitimate under the patent laws than that the inventors should be properly protected and compensated?

The argument is advanced that this insistence of the Wrights upon their rights is retarding the progress of aeronautics. The insistence of Professor Bell upon his rights did not retard the growth in use of the telephone. George M. Pullman's long fight against the Wagners and others did not check the popularity of the sleeping-car. Thomas A. Edison's numerous suits for the protection of his inventions have not kept any of them out of the market. The payment of royalties to Elias Howe, his heirs and assigns, has not prevented the development of the sewing machine industry.

But, if we really regard the flying machine as quite a different matter, and if we really believe that flying through the air should be as free as the air itself, then let us buy out, as a people, the rights of the Wrights. We could have done this for \$300,000 a few years ago. To do it now may cost us as many millions. To do it later may cost us many times more than it would cost us now. But if we want to be generous in the matter of throwing the aeronautic field open to all, let us not undertake to be generous at the expense exclusively of the Wrights. Let us, rather, petition Congress to do this thing at the nation's expense. The Wrights are entitled to their rights, every one of them, and to considerable honor besides.

The Wrights and Their Rights

AMPLE protection for the Panama canal is an imperative need. From both commercial and strategic points of view, the waterway will be one of the most important in the world. Our control will be complete, or should be. It would seem at least questionable if, after having expended hundreds of millions of dollars upon its construction, we should leave the canal unguarded. The cost of fortification, it is estimated, will be about \$10,000,000. The members of the Panama fortification board who visited the canal recently are expected to submit their report to Secretary of War Dickinson within a few weeks.

Hitherto the question has been mainly as to defense against European or Japanese attack, but of late there have been reminders of the possibility of Central American interference, and some have gone so far as to intimate that there would have to be a chain of forts and batteries along the twenty-one miles on each side of the zone. It should be considered, however, that the frontier is chiefly tropical jungle, which extends for many miles to north and south, and is so nearly impassable that invasion by land is highly improbable.

Tentative plans had been prepared by the fortification board prior to its visit to the isthmus for seacoast defense at both ends of the canal and for land defenses. After inspection of the proposed sites, the board found that but slight modifications would be called for in the tentative plans. Nearly all the areas desired are now the property of the United States. It is reported that Flamenco island in Panama bay will be cut down about 200 feet for placing batteries of large caliber guns commanding all approaches to the Pacific entrance, the handling of which will require a strong garrison.

It is the opinion of the army board that the canal will have to pay the expense of its own fortification, and canal bonds will probably be issued for this purpose.

BY AN error of the codifiers of the Bay state laws, five cents was dropped off the Boston tax limit. This little "joker" costs the city \$66,000 a year, which is no joke!

Our Ambitious Cities

SEATTLE, like Rome, was built on seven hills. And Seattle resembles Rome in being ambitious. She is demolishing her hills, but claims to be doubling her population almost yearly. Seattle people assert that within a decade their city will be larger than Chicago. What Chicago's expectations are it would be hard to guess; certain it is that she is making large plans for future improvement and expansion. Her old-time rival, St. Louis, is looking to other things than mere numbers within her borders, and says if population were the main thing China and India would have the rest of the world distanced; her pride just now is in the fact that her bank clearings last week were 9.7 per cent greater than in the corresponding week a year ago. All these cities and many of their sisters are looking forward to a fine showing in the new census.

American projects are eclipsed, however, by the big contest which has been held for the best plans for the city of Berlin in the year 2000. Several prizes, ranging from \$3000 to \$6000, were offered and the competition attracted the best German architects. Numerous problems were considered in the analyses, including the preservation of scenic features. The printed volumes will prove a mine of information for municipalities elsewhere. If Berlin continues to grow at her present rate, she will have a population of 6,450,000 inhabitants in 1950 and 10,000,000 in the year 2000.

One critic points out that the concentration of mankind in cities must lead to the development of new difficulties in government and new hardships for many of the populace. The larger the town the harder to keep it clean and wholesome, and the greater the chance for waste in taxation. Perhaps it will turn out that the best city is the one where life is most efficient, and that may not be the largest one.

THE shoe workmen of Lynn and adjacent cities who have been granted a half-holiday the year round are no doubt more than ever of the opinion that a half a "loaf" is much better than no holiday at all.

THE recent meeting of manufacturers with a view to the marking of British goods was more enthusiastic than the result of previous efforts in this respect would have led an outsider to expect. A quarter of a century ago when an attempt to deal with the question of foreign-made goods was dealt with, it was thought that it was only necessary to insist on the marking of all goods sold in Great Britain with the name of the country in which they were manufactured in order to overcome the difficulty. Theoretically, it all seemed simple enough, and an act was passed which gave birth to the well-known phrase, "Made in Germany."

It was not very long, however, before the manufacturers began to discover that the arrangement was not having altogether the effect they had anticipated. A vast advertisement was being given gratis to foreign products, and this was very far from being the worst. Certain products, such as razor blades, made in England and simply sent to Germany to be finished, were stamped with the legend "Made in Germany." Now they were not made in Germany, the greater part of the labor and the greater part of the process was English, but the finished article went abroad marked "Made in Germany," and from all parts of the world orders for these razors began to be sent direct to Germany. The Germans quite legitimately took advantage of their good luck to manufacture the blades called for in these orders, as well as to finish them, and this particular branch of the trade began quietly to slip out of the hands of the manufacturers in England, practically entirely owing to a device intended to induce the foreign market to purchase articles finished in England in preference to those finished on the continent.

The present agitation is conceived on very different lines to the last. It is aimed at stopping the use of bogus trade marks so closely resembling those of the English manufacturers as to deceive the unwary. It is not impossible, however, that a manufacturer who would deliberately use a trade mark intended to deceive a buyer would not adopt a form of words to counteract the effect of any label adopted by the chambers of commerce. So that, unless these chambers are in a position to enforce their views and their methods abroad as well as at home, it is difficult to see that any more good is likely to accrue from the second attempt than from the first.

Fortifications for Panama Canal

"All British"
